

Quest® InTrust® Knowledge Pack for ACS (with Add-ins)

Readme

May 2017

This readme provides information about the Quest® InTrust® 11.3 Knowledge Pack for ACS release.

Topics:

Key features

Integration with Operations Manager ACS using InTrust 11.3 Knowledge Pack for ACS and its add-ins provides the following features and benefits:

Long-term data storage, archival, and backup. With InTrust, you can use file-based or Centera-based repositories to store audit data in a compressed form for any period of time; extract events from the repository and restore them in the original format if required; import events to the database for reporting when needed.

Consolidation of audit trails from across your enterprise-wide network. InTrust extends the consolidation capabilities of native Windows auditing tools, providing for consolidation of data from variety of platforms and applications.

Quest expertise in security events analysis. InTrust and Operations Manager integration will provide you with reports on security data, helping you with in-depth analysis of valuable information collected throughout the network.

System Requirements

Before installing Quest InTrust Knowledge Pack for ACS, ensure your system meets the following minimum hardware and software requirements:

Table 1: Hardware requirements

Requirement	Details
Platform	Intel x86
Operating system	Microsoft Windows Server 2003 -OR- Microsoft Windows Server 2008
Additional Software	Microsoft Internet Explorer 6.0 or later Microsoft System Center Operations Manager Console 2007 Quest InTrust Server 11.0 Microsoft Windows Installer 2.0

CAUTION: The InTrust for ACS Report Pack should be deployed on the Microsoft SQL Server Reporting Services (SSRS) that is used to run the Operations Manager console.

NOTES:

- If you plan to deploy an InTrust agent on a dedicated computer, then Operations Manager console must be installed on the computer hosting the InTrust agent. Make sure that target computer is running the same version of the Operations Manager console as your Operations Manager server.
- If you plan to collect data without using InTrust agents, then the Operations Manager console must be installed on the computer hosting the InTrust server. Make sure this console is of the same version as the Operations Manager console running on the Operations Manager server.

Getting Started

- [Contents of Release Package](#)
- [Installation Instructions](#)

Contents of Release Package

 - Readme (this file)

Installation Instructions

To install, configure and use the solution, refer to the [Preparing for Gathering Audit Collection Services Data](#).

We are more than just a name

We are on a quest to make your information technology work harder for you. That is why we build community-driven software solutions that help you spend less time on IT administration and more time on business innovation. We help you modernize your data center, get you to the cloud quicker and provide the expertise, security and accessibility you need to grow your data-driven business. Combined with Quest's invitation to the global community to be a part of its innovation, and our firm commitment to ensuring customer satisfaction, we continue to deliver solutions that have a real impact on our customers today and leave a legacy we are proud of. We are challenging the status quo by transforming into a new software company. And as your partner, we work tirelessly to make sure your information technology is designed for you and by you. This is our mission, and we are in this together. Welcome to a new Quest. You are invited to Join the Innovation™.

Our brand, our vision. Together.

Our logo reflects our story: innovation, community and support. An important part of this story begins with the letter Q. It is a perfect circle, representing our commitment to technological precision and strength. The space in the Q itself symbolizes our need to add the missing piece — you — to the community, to the new Quest.

Contacting Quest

For sales or other inquiries, visit <https://www.quest.com/company/contact-us.aspx> or call +1-949-754-8000.

Technical support resources

Technical support is available to Quest customers with a valid maintenance contract and customers who have trial versions. You can access the Quest Support Portal at <https://support.quest.com>.

The Support Portal provides self-help tools you can use to solve problems quickly and independently, 24 hours a day, 365 days a year. The Support Portal enables you to:

- Submit and manage a Service Request
- View Knowledge Base articles
- Sign up for product notifications
- Download software and technical documentation
- View how-to-videos
- Engage in community discussions
- Chat with support engineers online
- View services to assist you with your product
