About This Document

This document lists objects (files, folders, registry entries and so on) that InTrust components add or modify on the systems where they are deployed. The document has been prepared to assist administrators who maintain computers that host InTrust components, as follows:

- Refer to the list to see which resources should be accessible to InTrust components during deployment.
- If you want to keep your systems free of garbage data, refer to the list to find whether a particular file, registry key, etc. is necessary for correct InTrust operation.

The following conventions are used in the document:

- Items added by InTrust are marked **bold**, as in %ALLUSERSPROFILE%\Application Data**Dell**. These items should not be removed from the system. If the item is a folder, its contents are not listed.
- Items modified by InTrust are listed using normal style. Write access to these items should be enabled for InTrust component deployment.

The list contains paths for 64-bit systems only. To find corresponding paths on 32-bit systems, refer to the following table:

On 64-bit Windows	On 32-bit Windows
%CommonProgramFiles(x86)%	%CommonProgramFiles%
%ProgramFiles(x86)%	%ProgramFiles%
HKEY_LOCAL_MACHINE\SOFTWAREWow6432Node	HKEY_LOCAL_MACHINE\SOFTWARE

We are more than just a name

We are on a quest to make your information technology work harder for you. That is why we build community-driven software solutions that help you spend less time on IT administration and more time on business innovation. We help you modernize your data center, get you to the cloud quicker and provide the expertise, security and accessibility you need to grow your data-driven business. Combined with Quest's invitation to the global community to be a part of its innovation, and our firm commitment to ensuring customer satisfaction, we continue to deliver solutions that have a real impact on our customers today and leave a legacy we are proud of. We are challenging the status quo by transforming into a new software company. And as your partner, we work tirelessly to make sure your information technology is designed for you and by you. This is our mission, and we are in this together. Welcome to a new Quest. You are invited to Join the Innovation™.

Our brand, our vision. Together.

Our logo reflects our story: innovation, community and support. An important part of this story begins with the letter Q. It is a perfect circle, representing our commitment to technological precision and strength. The space in the Q itself symbolizes our need to add the missing piece — you — to the community, to the new Quest.
