About this On Demand module

There are many Skype for Business Online policies and each policy can have many settings. Typically, policy settings must be managed using a PowerShell cmdlet. With the Policy Management for Skype for Business Online module, you can manage policies through an intuitive user interface. Policies can be applied in bulk to target users and groups and the module automatically detects group changes. The application of policies can be scheduled in order to maintain the correct Skype for Business Online settings across the organization.

Enhancements

Enhancement	ID
Mobility policy management is now supported. The Mobility field has been added to the Policies to Apply panel of the Rules page.	2505

Known issues

The following is a list of issues, including those attributed to third-party products, known to exist at the time of release.

Table 1: General known issues

Known Issue	Issue ID
When defining policy rules using the Internet Explorer v.11 browser, selecting the scroll bar in a Policies to Apply drop down list closes the list. As a workaround, use the up and down keyboard arrows to move through the list.	2753
Adding or removing rules does not create an audit log record.	2572

Incident response management

Quest Operations and Quest Support have procedures in place to monitor the health of the system and ensure any degradation of the service is promptly identified and resolved. On Demand relies on Azure and AWS infrastructure and as such, is subject to the possible disruption of these services. You can view the following status pages:

- Quest On Demand: <https://status.quest-on-demand.com/>
- Azure Services: <https://azure.microsoft.com/en-ca/status/>
- AWS Services: <https://status.aws.amazon.com/>

System requirements

The following web browsers are supported with On Demand:

- Internet Explorer 11
- Microsoft Edge

- Google Chrome (latest version)
- Mozilla Firefox (latest version)

Module licensing

About us

We are more than just a name

We are on a quest to make your information technology work harder for you. That is why we build communitydriven software solutions that help you spend less time on IT administration and more time on business innovation. We help you modernize your data center, get you to the cloud quicker and provide the expertise, security and accessibility you need to grow your data-driven business. Combined with Quest's invitation to the global community to be a part of its innovation, and our firm commitment to ensuring customer satisfaction, we continue to deliver solutions that have a real impact on our customers today and leave a legacy we are proud of. We are challenging the status quo by transforming into a new software company. And as your partner, we work tirelessly to make sure your information technology is designed for you and by you. This is our mission, and we are in this together. Welcome to a new Quest. You are invited to Join the Innovation™.

Our brand, our vision. Together.

Our logo reflects our story: innovation, community and support. An important part of this story begins with the letter Q. It is a perfect circle, representing our commitment to technological precision and strength. The space in the Q itself symbolizes our need to add the missing piece — you — to the community, to the new Quest.
