

Quest[®] Quest On Demand Global Settings

Release Notes

2019/08/01

These release notes provide information about the Quest On Demand Global Settings release.

Topics:

- [About Quest On Demand](#)
- [Release history](#)
- [Incident response management](#)
- [System requirements](#)
- [Product licensing](#)
- [More resources](#)
- [About us](#)

About Quest On Demand

Quest On Demand is a cloud based management platform, providing access to multiple Quest Software Microsoft management tools through a single interface. Cloud based is a term that refers to applications, services or resources made available to users on demand via the Internet. Quest On Demand Global Settings is a Software as a Service (SaaS) application where application software is hosted in the cloud and made available to users through quest-on-demand.com.

The Quest On Demand management platform is based on the concepts of organizations, task based modules and Azure AD tenants. When you sign up for the Quest On Demand service, you create an organization. The organization can subscribe to task based modules. Organization administrators can use the tools provided by the modules to perform administrative actions on Azure AD tenants.

Release history

Current Release

2019/08/01

ID	Enhancement
----	-------------

496	<p>You can now configure notifications on the new Settings > Notifications page.</p> <p>A notification is an email sent to one or more recipients following an event. For example, after a backup failure event, specified recipients receive a notification email.</p>
-----	---

Module release notes

- [Recovery](#)

Previous releases

2019/07/25

ID	Enhancement
----	-------------

173	<p>On premises agents can now be installed through the new Settings > Agents page.</p> <hr/> <p>The Group Management module is now available in the Europe Azure region.</p>
-----	--

2019/07/22

ID	Enhancement
----	-------------

552	<p>User management is now performed using the Access Control feature. The Permissions page has been removed.</p> <p>With access control, when you add a user to an organization, you also assign a role. The role determines what permission level a user has and ultimately, what tasks the user can perform.</p>
-----	--

2019/07/08

ID	Enhancement
421	To avoid confusion with the Audit module, the audit log feature Settings > Audit has been renamed Settings > Activity Trail .

2019/06/06

ID	Enhancement
192	The masthead drop down menu now includes the Account Settings option. The Account Settings page contains user configuration settings. Currently, you can enable or disable the session monitoring cookie.

2019/05/02

ID	Enhancement
33	The dashboard Needs Your Attention tile now displays the subscription status for modules and features.
177	The dashboard now includes the Policy Management modules.

2019/03/28

ID	Enhancement
6446	The Quest On Demand home page has been replaced by a dashboard that displays a summary of all Quest On Demand services. Note that by default, existing customers continue to see the original home page until further notice. When the dashboard is enabled, it provides a detailed summary of your Azure AD environment based on your current Quest On Demand subscriptions. The side navigation panel includes links to all the current modules.
6396	A new Welcome page for sign in and sign up includes a Guest User option. The quest-on-demand.com address now opens a Welcome to Quest On Demand page that replaces the previous Sign in and Sign up links. In addition, you can sign in to Quest On Demand as a guest user. As a guest user, you can explore the full value of Quest On Demand and its services without needing a trial account or a subscription. The guest user feature includes the new dashboard.

2019/03/22

ID Enhancement

8324 The Global Settings audit log now includes information on licenses. In addition to tenant add and remove events, the log now contains details on license consumption events.

2018/11/22

ID Enhancement

7254 You can now download an audit log for the Recovery module that contains a record of all enable and disable backup events.

ID Resolved Issues

7339 Resolved an issue where the text in the Register for Tech Preview email is unclear on the information required to register.

2018/08/27

ID Enhancement

6534 You can now contact Quest technical support to request the restore of a tenant that has been removed.

6533 You can now contact Quest technical support to request the deletion of an organization.

2018/07/24

ID Enhancement

6487 On Demand now supports the Canada Central Azure region.
A Microsoft Azure region is a set of datacenters deployed within a geographic area. Selecting the correct region for your On Demand organization enables you to achieve higher performance and supports your requirements and preferences regarding data location.
For more information on regions and organizations, see [Managing Organizations and Regions](#) in the *Global Settings User Guide*.

2018/07/03

ID Enhancements

6086 Improved data handling for expired subscriptions.

ID	Enhancements
----	--------------

A staged approach to handling data once a subscription has expired has been implemented. The final stage of the process is the complete deletion of all the customer data associated with a subscription.

For a description of the process, see [Subscriptions](#).

2018/03/22

ID	Enhancements
----	--------------

5791	Display of icons has been improved for the Microsoft Edge and Internet Explorer browsers.
------	---

ID	Resolved Issues
----	-----------------

5665	Resolved an issue on the On Demand home page where the Register For The Technical Preview button was not working correctly.
------	--

2018/03/15

Enhancements	ID
--------------	----

The Ireland region has been renamed in Quest On Demand to Europe . Any stored customer data continues to reside in the Ireland Microsoft datacenter. Some On Demand functions are now executed in the UK datacenter.	5851
---	------

Resolved Issues	ID
-----------------	----

Resolved an issue where add blocker software in the browser blocks access to On Demand.	5860
---	------

2018/03/01

Resolved issues

Issue	ID
Fixed the Visit Product Page buttons on the Subscription page. Clicking a button now opens the subscription page at https://www.quest.com/on-demand .	4253

2017/07/19

Enhancements

Enhancement	ID
Support for paid, trial, and demo subscriptions. Users can now subscribe to On Demand.	1408

Resolved issues

Issue	ID
Fixed presentation of web page for organization and region selection.	3929
The list of On Demand organization administrators cannot be empty. Each organization must have one On Demand administrator.	3878

2017/07/07

Enhancements

Enhancement	ID
Initial support for multiple organizations. Users can now belong to multiple organizations. <ul style="list-style-type: none">• During sign in, a user that belongs to multiple organizations is prompted to select an organization.• The organization name is now configurable as part of the On Demand sign up process.	1408
The Base admin consent permissions have been adjusted to require only the minimum necessary permissions.	3941

2017/06/26

Enhancements

Enhancement	ID
Support for role based access control (RBAC). You can now add administrative users to an On Demand organization. User can be added as On Demand Global administrators with access to all functions or Module administrators with access limited to specific modules. To add users, select Settings > Permissions .	1413
Support for geographic region selection. During sign up, you can choose the region where your On Demand data will be hosted.	2771

2017/06/20

Enhancements

Enhancement	ID
Support for granting of admin consent per module. When a tenant is added, the minimum admin consent permissions are granted. If a module requires additional permissions, admin consent must be granted through the Admin Consent Status page. On the tenant tile, status icons indicate the current admin consent state.	2714

Incident response management

Quest Operations and Quest Support have procedures in place to monitor the health of the system and ensure any degradation of the service is promptly identified and resolved. On Demand relies on Azure and AWS infrastructure and as such, is subject to the possible disruption of these services. You can view the following status pages:

- Quest On Demand: <https://status.quest-on-demand.com/>
- Azure Services: <https://azure.microsoft.com/en-ca/status/>
- AWS Services: <https://status.aws.amazon.com/>

System requirements

The following web browsers are supported with On Demand:

- Internet Explorer 11
- Microsoft Edge

- Google Chrome (latest version)
- Mozilla Firefox (latest version)

Product licensing

Quest On Demand is a Software as a Service (SaaS) application where application software is hosted in the cloud and made available to users through quest-on-demand.com.

Use of this software is governed by the Software Transaction Agreement found at www.quest.com/legal/sta.aspx and the SaaS Addendum at www.quest.com/legal/saas-addendum.aspx. This software does not require an activation or license key to operate.

You can sign in to Quest On Demand as a Guest user and sample the solutions the product can offer. As a Guest user, you can add your Azure AD tenant and look for problems that can be solved by Quest On Demand. To sign in as a Guest user, go to quest-on-demand.com and click **Continue as Guest**.

Trial licenses are available. To enable a trial license, you must use a Quest account to sign up for Quest On Demand. Use one of the following procedures:

- [To enable a trial license with an existing Quest account](#)
- [To create a Quest account and enable a trial license](#)

To enable a trial license with an existing Quest account

1. Go to <https://www.quest.com/on-demand/>
2. Scroll down to the module you are interested in and click **Try Online**.
3. On the Free Trial of <Module Name> page, click **Sign In for your Free Trial**.
4. Fill in your Quest account credentials and click **Sign In**.
The Welcome to Quest On Demand page opens.
5. In the **Add organization name** field, enter a name for your Quest On Demand organization.
6. In the **Select Region** field, select the region where you want your data to reside.
7. Click **Create New Organization**.

You can now add your Azure AD tenant and begin using the module. See the [Global Settings User Guide](#) for more information on working with Quest On Demand.

To create a Quest account and enable a trial license

1. Go to <https://www.quest.com/on-demand/>
2. Scroll down to the module you are interested in and click **Try Online**.
To try online, you must create a Quest account and then sign up for Quest On Demand.
3. Create a Quest account.
 - a. Click **Create a Trial Account**.
 - b. Fill in the fields on the Create Account page. Note that the email and password entered here will be the credentials you use to sign in to Quest On Demand.
 - c. Click **Create Account**.
The "We've sent you an email" page opens.

4. Sign in to Quest On Demand.
 - a. Go to your email account and open the email from support.quest.com. Click on the verification link. The Welcome to Quest On Demand page opens.
 - b. In the **Add organization name** field, enter a name for your Quest On Demand organization.
 - c. In the **Select Region** field, select the region where you want your data to reside.
 - d. Click **Create New Organization**.

You can now add your Azure AD tenant and begin using the module. See the [Global Settings User Guide](#) for more information on working with Quest On Demand.

More resources

About us

Quest provides software solutions for the rapidly-changing world of enterprise IT. We help simplify the challenges caused by data explosion, cloud expansion, hybrid datacenters, security threats, and regulatory requirements. We are a global provider to 130,000 companies across 100 countries, including 95% of the Fortune 500 and 90% of the Global 1000. Since 1987, we have built a portfolio of solutions that now includes database management, data protection, identity and access management, Microsoft platform management, and unified endpoint management. With Quest, organizations spend less time on IT administration and more time on business innovation. For more information, visit www.quest.com.

Technical support resources

Technical support is available to Quest customers with a valid maintenance contract and customers who have trial versions. You can access the Quest Support Portal at <https://support.quest.com>.

The Support Portal provides self-help tools you can use to solve problems quickly and independently, 24 hours a day, 365 days a year. The Support Portal enables you to:

- Submit and manage a Service Request
- View Knowledge Base articles
- Sign up for product notifications
- Download software and technical documentation
- View how-to-videos
- Engage in community discussions
- Chat with support engineers online
- View services to assist you with your product
