

KACE® Systems Management Appliance

Technical Specifications for Physical Appliances

January 2019

This document lists the technical specifications of the physical KACE Systems Management Appliance (SMA). The physical appliance uses Dell hardware that is dedicated to running the KACE SMA.

For additional KACE SMA product documentation, go to <https://support.quest.com/kace-systems-management-appliance/technical-documents>.

Topics:

- [Hardware specifications](#)
- [Operating system requirements for Agent-managed devices](#)
- [Operating system requirements for Agentless management](#)
- [Browser requirements for the web-based user interface](#)

Hardware specifications

The KACE SMA physical appliance has the following hardware specifications.

Table 1. Hardware specifications

Component	K1100	K1200
Processor	One Intel® E5-2620V4, 2.4 GHz CPU	Two Intel E5-2620V4, 2.4 GHz CPU
Storage Capacity	1 TB	3.6 TB
Network Interface	Dual 1 Gigabit Ethernet Ports	Dual 10 Gigabit Ethernet Ports

Memory	16 GB	64 GB
Disk Drives	Two Hot Plug 1 TB, 7200 RPM SATA Hard Drives	Four Hot Plug 1.2 TB, 10000 RPM SAS Hard Drives
RAID Level	1	5
Power Supply Unit	Single, Auto Ranging 550 W PSU	Redundant, Auto Ranging 550 W PSU
Appliance Form Factor	1 RU	1 RU
Rack Mount Kit	Sliding rails for 19-inch, 4-post rack	Sliding rails for 19-inch, 4-post rack

Operating system requirements for Agent-managed devices

The KACE SMA Agent is an application that can be installed on devices to enable device management through the KACE SMA. The KACE SMA Agent can be installed on devices that meet the following operating system requirements. For additional specifications, see the operating system vendor's documentation. The appliance imposes no additional requirements, and supports 32-bit and 64-bit architectures where applicable.

Table 2. Operating system requirements

Operating system	Details
Windows®	
Windows 8, 8.1, and 10	Professional, Enterprise
Windows 7	Professional, Enterprise, Ultimate
Windows Server® 2016	Essentials, Standard ¹ , Datacenter ¹ ¹ Cannot be running in Server Core mode
Windows Server 2012, 2012 R2	Foundation, Essentials, Standard ² , Datacenter ² ² Cannot be running in Server Core mode
Windows Server 2008 R2	Foundation, Essentials, Standard ² , Datacenter ² ² Cannot be running in Server Core mode
Mac®	
Mac OS X®	10.10, 10.11, 10.12
Linux®	

Linux Red Hat® Linux AS and ES	Versions 6.x – 7.x, 32-bit and 64-bit architecture
Ubuntu®	Versions 14.04, 16.04, 32-bit and 64-bit architecture
SUSE® Linux Enterprise Server	Version 11 - 12, 32-bit and 64-bit architecture

End of Support announcement

KACE products will be retiring support for OS versions that are no longer supported by the OS vendors. KACE tries to provide extended coverage deployments and management of operating systems for as long as possible. However, it is ideal to move unsupported OS through their lifecycle from *Supported*, through *Limited*, to *Discontinued* support over time.

- Support for Windows XP, Windows Server 2003 and Windows Vista will be *Discontinued* for the KACE SMA in version 8.0. Both products were previously moved to *Limited* support on November 1, 2016.
 - Microsoft ended support for Windows XP, Windows Server 2003 and Windows Vista on 4/8/14, 7/14/15 and 4/11/17, respectively.
- Support for older versions of Mac OS will be *Discontinued* for the KACE SMA version 8.0.
 - Mac OS X 10.7, 10.8, and 10.9.
 - Apple does not issue such announcements for OS versions but rather for individual Mac models.
 - Generally, an OS development stops as soon as the new one comes out. Security updates are an exception, and are still provided for old OS versions.
- We strongly recommend that you upgrade your devices to the latest version OS in order to have the best support from both the OS vendor and KACE.
- We realize that some are still using older versions of Microsoft products and therefore have attempted to let you use the product within the appliance, but we will no longer develop, test or provide support for these versions.

Understanding Limited versus Discontinued Support

The main differences between *Limited* and *Discontinued* Support:

Limited support:

- Support is available for this release/version, and we will use best efforts to provide known workarounds or fixes.
- No new code fixes will be generated except under extreme circumstances and at our discretion.
- Enhancement requests are not accepted.
- You are encouraged to plan an upgrade to a release/version on Full support.
- Release/version is available for download from the Support Portal.

Discontinued support:

- Includes release/versions which are retired or discontinued.
- No new patches or fixes will be created for this release.

- Release is not available for download from the Support Portal.
- Support will be provided to assist with upgrading to a supported version.
- Support is not obligated to provide assistance on this version of the product.

Lifecycle Policy

Each of the KACE Products provides the Policies and Product Lifecycle details and the corresponding support terms as a section/tab from the main product support page:

<https://support.quest.com/kace-systems-management-appliance>

<https://support.quest.com/kace-systems-management-appliance/8.0#psPLCPanel>

Operating system requirements for Agentless management

Agentless management enables you to inventory devices without using the KACE SMA Agent. Agentless management can be enabled for devices that have the following operating systems:

- AIX®
- CentOS™
- Chrome™ OS
- Debian®
- Fedora®
- FreeBSD®
- HP-UX®
- Mac OS X
- Oracle® Enterprise Linux
- Red Hat
- SUSE
- Solaris®
- Ubuntu
- Windows
- Windows Server

Browser requirements for the web-based user interface

To access the KACE SMA Administrator Console and User Console web-based user interfaces, use a monitor with a screen resolution of at least 1280 pixels by 800 pixels and one of the following web browser applications.

Table 3. Browser requirements for the web-based user interface

Browser	Details
Internet Explorer®	11.x or later
Microsoft Edge™	12.x or later
Firefox®	45.x or later
Safari®	7.x or later
Chrome™	49.x or later

About us

Quest provides software solutions for the rapidly-changing world of enterprise IT. We help simplify the challenges caused by data explosion, cloud expansion, hybrid datacenters, security threats, and regulatory requirements. We are a global provider to 130,000 companies across 100 countries, including 95% of the Fortune 500 and 90% of the Global 1000. Since 1987, we have built a portfolio of solutions that now includes database management, data protection, identity and access management, Microsoft platform management, and unified endpoint management. With Quest, organizations spend less time on IT administration and more time on business innovation. For more information, visit www.quest.com.

Technical support resources

Technical support is available to Quest customers with a valid maintenance contract and customers who have trial versions. You can access the Quest Support Portal at <https://support.quest.com>.

The Support Portal provides self-help tools you can use to solve problems quickly and independently, 24 hours a day, 365 days a year. The Support Portal enables you to:

- Submit and manage a Service Request
- View Knowledge Base articles
- Sign up for product notifications
- Download software and technical documentation
- View how-to-videos
- Engage in community discussions
- Chat with support engineers online
- View services to assist you with your product.
