Release Notes

October 2019

These release notes provide information about the Quest® On Demand Migration release.

About On Demand Migration

On Demand Migration is a cloud-based application for migrating Azure AD users, groups, mailboxes, OneDrive for Business storages and other resources between Azure AD tenants. It is a part of [Quest On Demand platform](#).

Key Features

Account Migration

- **Pre-migration assessment:**
 - Analysis of the source Azure AD structure and the related resources, including Microsoft Office 365.
 - Reports on problems, misconfiguration and potential risks that might adversely affect the migration.
- **Migration and matching:**
 - Migrate Azure AD users, groups and the related information between tenants.
 - Migrate Exchange Online mailboxes and share free/busy information between tenants.
 - Map the existing accounts in the source and target Azure AD tenants for further resource processing.
- **Shared resources processing / availability:**
 - Grant migrated accounts access to source tenant's resources and applications.
 - Provide access to SharePoint Online for the migrated users.

- **Domain coexistence services**, allowing to set mail sending from new/ original addresses and access cross-tenant data before the migration is finished
- **OneDrive for Business data migration**
- **Robust project management interface and in-depth progress reporting.**

Known issues and limitations

The following is a list of issues, including those attributed to third-party products, known to exist at the time of release.

Table 42: General known issues

Issue ID	Known Issue
PFM-76	There is currently no way to stop running tasks.
PFM-77	After migration to the target, the folder name remains unchanged, even the original source folder has been renamed. On Demand Migration does not support renaming folders.
ODM-1112	If the Skip if the target file is the same version or newer option is selected, files that were previously migrated and for which additional sharing permissions have been added may not appear in the Shared With Me panel of users who have been granted this additional sharing permission. Workaround: re-run One Drive migration task with Overwrite target files for selected migration option selected.
ODM-872	Statistics related to permissions can be incorrect in some specific cases.
ODM -855	Deletion of target object after the migration may not be reported.
N/A	In case the created Mailbox Switch task is edited and the mail forwarding direction is changed, all selected notification messages will be readdressed, but the wizard may not display notification settings correctly. Workaround: Select Run later and finish the task to re-open it. After the task is re-opened you can see the actual notification settings. Now you can schedule the task as necessary.
ODM -784	Email addresses of recipients joined to address rewriting may stay unchanged in invitations to meetings.
N/A	If you remove a tenant that is currently used in migration projects from On Demand, the affected projects can still be opened without any alerts or notifications. However, all project tasks will fail.
ODM-176	Mail Migration Task Wizard cannot be finished if you add and then clear the value in Exclude mail before and Exclude mail after fields. Workaround: Close the wizard and create a task anew.
DO-728	Double-clicking Finish button in wizards may result in creating several duplicate tasks.
N/A	All accounts must be matched or migrated <i>before</i> migrating the groups they belong to, or with the same task that migrate groups. Otherwise, the newly migrated accounts will not be added to the target groups. Workaround: Re-migrate the affected groups after all their members are migrated.
ODM-309	If you migrate a mail-enabled group with non mail-enabled members, some of those users might not be added to the target group. The following error is displayed for each affected user: " Group membership migration completed with errors. Couldn't find object [User GUID]. Please make sure that it was spelled correctly or specify a different object. " Workaround: Re-migrate the affected groups.
ODM-335	Deleting or moving a file in the OneDrive storage that is currently being migrated may result in aborting the storage transfer with Content transfer failed error. Other storages from the migration task are not affected. Workaround: Re-migrate the failed storage.

Issue ID	Known Issue
ODM-293	A search query entered by user to filter content may be lost in case the user switches tab.
ODM-37	Migration of Microsoft Office 365 groups and security groups with dynamic membership is not supported.

Table 43: SharePoint Online migration known issues

Issue ID	Known Issue
157005	Migrated discussion board replies are not tagged as "Best reply" on target.
161588	Custom content type assigned to documents is not migrated. All documents will have the default content type on target.
168288	Discussion List created by the site Community feature is renamed to <i>Community Discussion</i> in Team site (STS#3 template.)
169663	Files and list items are not migrated to subsites with the following characters in the URL: <, >, &, ", '
161760	Site collection status is not updated if the migration task includes more than one site collection.
164683	The search field shows a limited number of characters. Only the first 22 characters are visible for the long search queries.

Incident response management

Quest Operations and Quest Support have procedures in place to monitor the health of the system and ensure any degradation of the service is promptly identified and resolved. On Demand Migration relies on Microsoft Azure infrastructure and as such is subject to the possible disruption of the related services.

You can view the following status pages:

- Quest On Demand: <https://status.quest-on-demand.com/>
- Azure Services: <https://azure.microsoft.com/en-ca/status/>
- AWS Services: <https://status.aws.amazon.com/>

System requirements

The following web browsers are supported with On Demand:

- Microsoft Internet Explorer 11
- Microsoft Edge
- Google Chrome (latest version)
- Mozilla Firefox (latest version)

System requirements for Client Update Agent deployment

- Microsoft Windows 7 or later
- Microsoft Outlook 2010 ([minimal supported version is 14.0.7159.5000, October 13, 2015, update for Outlook 2010 \(KB3085604\)](#)), 2013 ([minimal supported version 15.0.4779.1001, December 8, 2015, update for Outlook 2013 \(KB3114349\)](#)) or 2016

i **NOTE:** Client Update Agent supports the MAPI over HTTP only. If the Outlook version is earlier than specified above and uses RPC over HTTP instead of MAPI over HTTP, it must to be upgraded to minimal supported version.

Product Licensing

On Demand is a Software as a Service (SaaS) application where application software is hosted in the cloud and made available to users through quest-on-demand.com.

Use of this software is governed by the Software Transaction Agreement found at www.quest.com/legal/sta.aspx and the SaaS Addendum at www.quest.com/legal/saas-addendum.aspx. This software does not require an activation or license key to operate.

You can sign in to On Demand as a Guest user and sample the solutions the product can offer. As a Guest user, you can add your Azure AD tenant and look for problems that can be solved by On Demand. To sign in as a Guest user, go to quest-on-demand.com and click **Continue as Guest**.

Trial subscriptions are available. Visit Quest® On Demand Migration page for more information and pricing: <https://www.quest.com/products/on-demand-migration/>

To enable a trial subscription

i | **NOTE:** You can use the product free during a 30-day trial period for a limited number of users allowed to be migrated

1. Open <https://www.quest.com/products/on-demand-migration/>.
2. Scroll down to the module you want to try and click **Try Online**.
3. To proceed you should read and accept license agreement.
4. Select **Sign In for your Free Trial** option to use your existing Quest account, or **Create a Trial account** option to create a new account.
5. You will receive an email containing step by step instructions on starting your trial period for the product.

To purchase a commercial subscription

1. Open <https://www.quest.com/products/on-demand-migration/>.
2. Click **Request Pricing** and fill in the necessary details.
3. Click **Contact Sales** to request pricing and get help with your business needs.

The product licensing is based on the number of **unique source accounts** processed by the migration and/or matching tasks. The licenses are only consumed once the task is started (either automatically or manually). Simply adding accounts to the tasks without starting them does not consume the licenses. Shared, Room, Equipment mailboxes, and guest users do not consume licenses.

i | **NOTE:** The license is **permanently** assigned to the account. Thus, you can use this account in any number of tasks (migration, re-matching, etc.) without consuming the additional licenses.

There are no data limits for OneDrive, SharePoint, mailbox and public folders content migration.

For more information on available subscriptions and licensing refer to [On Demand Global Settings User Guide](#).

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition,

"control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made,

use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

- (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and
- (b) You must cause any modified files to carry prominent notices stating that You changed the files; and
- (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and
- (d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use,

reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions.

Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS
