

# One Identity Starling

## Release Notes

### 16 January 2019

These release notes provide information about the 16 January 2019 One Identity Starling release.

## About this release

One Identity Starling helps to combine products from the One Identity line to create a secure and customizable cloud service. Administrators use the Starling site to create a new organization, register new accounts, add services to their organization, and gain secure access to those services.

Starling 16 January 2019 is a general release.

## New features

New features in the 16 January 2019 release of Starling:

- There are no new features for this release. See below for information regarding new features in previous releases.

See also:

- [Resolved issues](#)

**The following were new features in previous releases of Starling.**

#### **24 October 2018 new features**

- Support page – A new page is available that provides access to support resources.

#### **15 August 2018 new features**

- Starling Connect – The Starling Connect service is now available for trial or purchase.

#### **1 August 2018 new features**

- Access Summary page – This page replaces and expands on the now deprecated Users page. It is available to organization administrators for viewing and managing the users, clients, and products associated with your organization.
- Managing Organization Admins page – Starling organization roles are now managed on a new page.

#### **18 July 2018 new features**

- Active Roles 7.3 – The latest version of Active Roles is eligible to use the One Identity Hybrid Subscription service.

#### **20 June 2018 new features**

- Password Manager 5.8.0 – The latest version of Password Manager is eligible to use the One Identity Hybrid Subscription service.
- Safeguard 2.2 – The latest version of Safeguard is eligible to use the One Identity Hybrid Subscription service.

#### **23 May 2018 new features**

- One Identity Hybrid Subscription – A new service is available that allows you to join a One Identity on-premises product with Starling. Password Manager 5.8.0 and Safeguard 2.2 are a couple of the upcoming products that will be eligible to use this service.
- General Data Protection Regulation changes – Due to the new GDPR requirements, a GDPR contact is now required for your Starling account. For more information, see the Starling User Guide. Also, please take time to review the [One Identity legal page](#).

## **Deprecated features**

The following is a list of features that are no longer supported for Starling.

- There were no deprecated features for the 16 January 2019 release. See below for information regarding deprecated features in previous releases.

### 1 August 2018 deprecated features

- Users page: The Users page was removed as part of changes to how Starling provides insight into accounts and how it assigns organization level permissions.

## Resolved issues

- [Starling online community](#)

## Globalization

This section contains information about installing and operating this product in non-English configurations, such as those needed by customers outside of North America. This section does not replace the materials about supported platforms and configurations found elsewhere in the product documentation.

This release is Unicode-enabled and supports any character set. It supports simultaneous operation with multilingual data. This release is targeted to support operations in the following regions: North America, Western Europe and Latin America, Central and Eastern Europe.

# About us

One Identity solutions eliminate the complexities and time-consuming processes often required to govern identities, manage privileged accounts and control access. Our solutions enhance business agility while addressing your IAM challenges with on-premises, cloud and hybrid environments.

## Contacting us

For sales or other inquiries, visit <https://www.oneidentity.com/company/contact-us.aspx> or call +1-800-306-9329.

## Technical support resources

Technical support is available to One Identity customers with a valid maintenance contract and customers who have trial versions. You can access the Support Portal at <https://support.oneidentity.com/>.

The Support Portal provides self-help tools you can use to solve problems quickly and independently, 24 hours a day, 365 days a year. The Support Portal enables you to:

- Submit and manage a Service Request
- View Knowledge Base articles
- Sign up for product notifications
- Download software and technical documentation
- View how-to videos at [www.YouTube.com/OneIdentity](http://www.YouTube.com/OneIdentity)
- Engage in community discussions
- Chat with support engineers online
- View services to assist you with your product
