One Identity Starling

Release Notes

26 January 2022
These release notes provide information about the 26 January 2022 One Identity Starling release. For the most recent documents and product information, see More resources.

About this release

One Identity Starling helps to combine products from the One Identity line to create a secure and customizable cloud service. Administrators use the Starling site to create a new organization, register new accounts, add services to their organization, and gain secure access to those services.

Starling 26 January 2022 is a general release.

New features

New features in the 26 January 2022 release of Starling:

- There are no new features for this release. See below for information regarding new features in previous releases.

The following were new features in previous releases of Starling.

1 December 2021 new features

- Updates to Applications page: Minor updates have been made to improve the look and feel of the Applications page.

3 November 2021 new features
Applications

A new settings page has been added which allows you to add an application to create a relying party trust that allows directory users to authenticate and use the target application.

The Directory Services page has been renamed to Directories.

30 June 2021 new features

Safeguard Remote Access is now available: This service is designed to act as a client-less, browser-based secure terminal access to servers via integration with the Safeguard for Privileged Sessions (SPS) product. For information regarding this service, see the documentation specific to Safeguard Remote Access.

16 June 2021 new features

Starling CertAccess: Starling Governance has been renamed to Starling CertAccess.

2 June 2021 new features

Joined Products page: A new settings page has been added which allows you to view and manage the One Identity products currently joined to your Starling organization.

5 May 2021 new features

Starling CertAccess is now available: This service allows you to manage access requests and access certifications using Starling CertAccess in an Active Directory environment managed by One Identity Active Roles. For information regarding this service, see the documentation specific to Starling CertAccess.

Deprecated features

The following is a list of features that are no longer supported for Starling.

- Internet Explorer 11 is no longer supported.

Known issues

The following is a list of issues, including those attributed to third-party products, known to exist at the time of release.

Table 1: General known issues

<table>
<thead>
<tr>
<th>Known Issue</th>
<th>Issue ID</th>
</tr>
</thead>
<tbody>
<tr>
<td>In rare cases an email address may not be accepted when signing up for Starling. Contact Support for assistance if you are having difficulties creating an account.</td>
<td>30736</td>
</tr>
<tr>
<td>You may be unable to reset your Starling account password if using Firefox. Workaround: Use a different browser to reset your password.</td>
<td>103602</td>
</tr>
</tbody>
</table>
System requirements

Before using the 26 January 2022 Starling release, ensure that your system meets the following minimum software requirements.

Browser requirements

Table 2: Supported desktop browsers

<table>
<thead>
<tr>
<th>Browser</th>
<th>Minimum OS/Platform</th>
<th>Version</th>
</tr>
</thead>
<tbody>
<tr>
<td>Google Chrome</td>
<td>Windows 10</td>
<td>Latest</td>
</tr>
<tr>
<td></td>
<td>Mac OS X Yosemite</td>
<td></td>
</tr>
<tr>
<td>Mozilla Firefox</td>
<td>Windows 8.1</td>
<td>Latest</td>
</tr>
<tr>
<td>Microsoft Edge</td>
<td>Windows 10</td>
<td>Latest</td>
</tr>
<tr>
<td>Safari</td>
<td>Mac OS X Yosemite</td>
<td>See OS/Platform</td>
</tr>
</tbody>
</table>

Table 3: Supported mobile browsers

<table>
<thead>
<tr>
<th>Browser</th>
<th>Minimum OS/Platform</th>
<th>Version</th>
</tr>
</thead>
<tbody>
<tr>
<td>Google Chrome</td>
<td>Android</td>
<td>Latest</td>

- Starling online community

Globalization

This section contains information about installing and operating this product in non-English configurations, such as those needed by customers outside of North America. This section
does not replace the materials about supported platforms and configurations found elsewhere in the product documentation.

This release is Unicode-enabled and supports any character set. It supports simultaneous operation with multilingual data. This release is targeted to support operations in the following regions: North America, Western Europe and Latin America, Central and Eastern Europe.
About us

One Identity solutions eliminate the complexities and time-consuming processes often required to govern identities, manage privileged accounts and control access. Our solutions enhance business agility while addressing your IAM challenges with on-premises, cloud and hybrid environments.

Contacting us

For sales and other inquiries, such as licensing, support, and renewals, visit https://www.oneidentity.com/company/contact-us.aspx.

Technical support resources

Technical support is available to One Identity customers with a valid maintenance contract and customers who have trial versions. You can access the Support Portal at https://support.oneidentity.com/.

The Support Portal provides self-help tools you can use to solve problems quickly and independently, 24 hours a day, 365 days a year. The Support Portal enables you to:

- Submit and manage a Service Request
- View Knowledge Base articles
- Sign up for product notifications
- Download software and technical documentation
- View how-to videos at www.YouTube.com/OneIdentity
- Engage in community discussions
- Chat with support engineers online
- View services to assist you with your product
