

Starling Connect

Release Notes

11 Decemeber 2019

These release notes provide information about the 11 Decemeber 2019 Starling Connect release.

About this release

Accessible from the One Identity Starling site (<https://www.cloud.oneidentity.com/>), Starling Connect extends your investment in identity governance beyond on-premises apps to target cloud applications that are used by your partners. Starling Connect builds on One Identity Manager and Active Roles to unify governance, extend access controls, and ensures compliance, to reduce the time taken to provision / de-provision users and groups.

New features

The following is a list of new features in this release of Starling Connect.

11 December 2019 new features

The following updates are released:

- **SuccessFactors HR connector bug fixes.**
- **Custom attributes for Coupa connector.**
- See also: [Resolved Issues](#)

The following were the new features in the previous releases of Starling Connect.

5 December 2019 new features

The following updates were released:

- **Configuring Amazon S3 AWS connector to support entitlements for User and Group.**
- **SuccessFactors HR connector enhancements.**
- See also: [5 December 2019 enhancements](#)

21 November 2019 new features

The following updates were released:

- **The Okta connector was released and it can be used for provisioning or de-provisioning resources.**
- **Versioning of Starling connectors.**
- **Starling Connect support for Active Roles.**
- **Custom attributes for Coupa connector.**
- **Deprecation of Bitbucket connector.**
- See also:
 - [21 November 2019 enhancements](#)
 - [21 November 2019 resolved issues](#)
 - [21 November 2019 deprecated features](#)

7 November 2019 new features

The following updates were released:

- **No new features**
- See also: [7 November 2019 enhancements](#)

24 October 2019 new features

The following updates were released:

- **No new features**
- See also:
 - [24 October 2019 enhancements](#)
 - [24 October 2019 resolved issues](#)

10 October 2019 new features

The following updates were released:

- **No new features**
- See also: [10 October 2019 enhancements](#)

1 October 2019 new features

The following updates were released:

- **No new features**
- See also: [1 October 2019 resolved issues](#)

12 September 2019 new features

The following updates were released:

- **No new features**
- See also: [12 September 2019 enhancements](#)

29 August 2019 new Features

The following updates were released:

- **No new features**
- See also: [29 August 2019 enhancements](#)

16 August 2019 new features

The following updates were released:

- **No new features**
- See also: [16 August 2019 enhancements](#)

2 August 2019 new features

The following updates were released:

- **No new features**

18 July 2019 new features

The following updates were released:

- **No new features**
- See also: [18 July 2019 enhancements](#)

4 July 2019 new features

The following updates were released:

- **Coupa**
- See also:
 - [4 July 2019 enhancements](#)
 - [4 July 2019 resolved issues](#)

20 June 2019 new features

The following updates were released:

- **No new features**
- See also:
 - [20 June 2019 enhancements](#)
 - [20 June 2019 resolved issues](#)

9 May 2019 new features

The following Starling connectors were released and they can be used for provisioning or de-provisioning resources:

- **GoToMeeting**
- See also: [9 May 2019 resolved issues](#)

25 April 2019 new features

The following Starling connectors were released and they can be used for provisioning or de-provisioning resources:

- **Concur**
- **Tableau**

11 April 2019 new features

The following Starling connectors were released and they can be used for provisioning or de-provisioning resources:

- **Azure AD**
- **GSuite**

28 March 2019 new features

The following Starling connectors were released and they can be used for provisioning or de-provisioning resources:

- **Zendesk**
- **Citrix ShareFile**

14 March 2019 new features

The following Starling connectors were released and they can be used for provisioning or

de-provisioning resources:

- **Workbooks**
- **DocuSign**

28 February 2019 new features

The following Starling connectors were released and they can be used for provisioning or de-provisioning resources:

- **Statuspage**
- **Zendesk Sell**
- See also: [28 February 2019 resolved issues](#)

14 February 2019 new features

The following Starling connectors were released and they can be used for provisioning or de-provisioning resources:

- **Oracle IDCS**
- **Bitbucket**

31 January 2019 new features

The following Starling connectors were released and they can be used for provisioning or de-provisioning resources:

- **Egnyte**
- **SugarCRM**
- See also: [31 January 2019 resolved issues](#)

17 January 2019 new features

The following Starling connectors were released and they can be used for provisioning or de-provisioning resources:

- **NutShell**
- **Insightly**
- See also: [17 January 2019 resolved issues](#)

08 January 2019 new features

The following Starling connectors were released and they can be used for provisioning or de-provisioning resources:

- **SuccessFactors HR**

03 January 2019 new features

The following Starling connectors were released and they can be used for provisioning or

de-provisioning resources:

- **Pipedrive**

20 December 2018 new features

The following Starling connectors were released and they can be used for provisioning or de-provisioning resources:

- **Trello**
- **Box**

05 December 2018 new features

The following Starling connectors were released and they can be used for provisioning or de-provisioning resources:

Atlassian JIRA Confluence

22 November 2018 new features

The following Starling connectors were released and they can be used for provisioning or de-provisioning resources:

- **Dropbox**
- **Crowd**
- See also: [22 November 2018 resolved issues](#)

25 October 2018 new features

The following Starling connectors were released and they can be used for provisioning or de-provisioning resources:

- **Amazon S3 AWS**
- **ServiceNow**
- See also: [25 October 2018 resolved issues](#)

17 October 2018 new features

The following Starling connector was released and it can be used for provisioning or de-provisioning resources:

- **No new feature**
- See also: [17 October 2018 enhancements](#)

26 September 2018 new features

The following Starling connector was released and it can be used for provisioning or de-provisioning resources:

- **SuccessFactors**

15 August 2018 new features

The following Starling connectors were released and they can be used for provisioning or de-provisioning resources:

- **Salesforce**
- **Facebook Workplace**
- **SAP Cloud Platform**
- **JIRA Server**
- **RSA Archer**
- See also: [15 August 2018 resolved issues](#)

Resolved issues

The following is a list of issues addressed in this release of Starling Connect.

Resolved Issues

Table 1: General resolved issues

Resolved issue	Issue ID
In Starling Connect Connectors for SuccessFactors HR , Error 400 is displayed while browsing BusinessUnits , Companies and Divisions.	215599
The Starling connector is unable to fetch some of the attributes of the Employee object for SuccessFactors HR .	215600
The Coupa connector has been updated to remove the custom attributes new-user and delivery-info-on-user-record from mapping and schema. This is populated based on the custom configuration in the Starling portal while registering the connector.	184406

The following issues were resolved in previous releases of Starling Connect.

21 November 2019 resolved issues

Table 2: General resolved issues

Resolved issue	Issue ID
User update operation fails when the members of Role or Groups has members without the Id field.	170605
Custom logic implemented in Coupa connector to handle the account-security-type attribute.	170319
SuccessFactorsHR Employees are not getting loaded in the target system browser and Synchronization process.	171916

24 October 2019 resolved issues

Table 3: General resolved issues

Resolved issue	Issue ID
When the Password policy is enabled in the Archer Cloud application, the update operation on the RSA Archer User Object type will fail.	167633

1 October 2019 resolved issues

Table 4: General resolved issues

Resolved issue	Issue ID
OneIM synchronization process does not get all the Users. It always takes only 500 Users from the Coupa cloud system.	153550

4 July 2019 resolved issues

Table 5: General resolved issues

Resolved issue	Issue ID
In Starling Connect Connectors for SuccessFactors, performance enhancement by removing additional calls made during User retrieval. Logging is enabled to log the resource count in trace messages of App Insights. NOTE: Update the synchronization shell or create a new synchronization shell in One Identity Manager as the changes are introduced in the schema. Roles and Group Memberships are removed in the schema.	125091

20 June 2019 resolved issues

Table 6: General resolved issues

Resolved issue	Issue ID
For the Starling Connect Connector RSA Archer, the ISMS group properties that is leads , leadBackup , and coaches now support multi-value. The schemas for these properties are updated from 'type': 'string' and 'multiValued': false to 'type': 'complex' and 'multiValued': true .	121821

Resolved issue	Issue ID
----------------	----------

i **NOTE:** Update the synchronization shell or create a new synchronization shell in One Identity Manager as the changes are introduced in the schema for ISMS attributes.

9 May 2019 resolved issues

Table 7: General resolved issues

Resolved issue	Issue ID
Optimized logging capability by excluding 503 error code from being logged as an exception in app insights.	113284

28 February 2019 resolved issues

Table 8: General resolved issues

Resolved issue	Issue ID
In Starling Connect Connectors for RSA Archer, error 500 is displayed when special characters are used during User Provisioning.	107843

31 January 2019 resolved issues

Table 9: General resolved issues

Resolved issue	Issue ID
In Starling Connect Connector for RSA Archer, the connector endpoint responses are slow.	105558

17 January 2019 resolved issues

Table 10: General resolved issues

Resolved issue	Issue ID
In Starling Connect Connector for ServiceNow, the password does not get encrypted.	103029

22 November 2018 resolved issues

Table 11: General resolved issues

Resolved issue	Issue ID
In Starling Connect Connector for RSA Archer, it is not possible to remove a user from certain groups.	97716

25 October 2018 resolved issues

Table 12: General resolved issues

Resolved issue	Issue ID
The runtime versions of all the connectors are incorrectly pinned.	80025

15 August 2018 resolved issues

Table 13: General resolved issues

Resolved issue	Issue ID
In Salesforce instances containing huge number of users and groups, Starling Connect – Connectors may log many server exceptions.	32425
On entering wrong credentials, the Salesforce connector fails and error 500 is seen.	51042
The Salesforce TokenManager uses .Result instead of <code>async/await</code> .	51044

Known issues

The following is a list of issues, including those attributed to third-party products, known to exist at the time of release.

Table 14: General known issues

Known issue	Issue ID
In Starling Connect Connector for Concur, after deleting the user on One Identity Manager, an error message is displayed that the request could not be completed successfully though the user is deleted in the target instance. Note this error	114620

Known issue	Issue ID
does not affect the functionality as the user is already deleted.	
In Starling Connect Connector for SAP Cloud Platform, Password Policy must be applied appropriately in One Identity Manager to enable the User Create feature to work successfully.	51186
In Starling Connect Connector for Facebook Workplace, to use a group, the group must contain at least one member.	51185
In Starling Connect Connector for Facebook Workplace, removing the last member of a group deletes the group automatically.	51170
In Starling Connect Connector for JIRA Server, deletion of a group is not allowed.	51518
In Starling Connect Connector for RSA Archer, it is not possible to have multiple log-ins with the same instance.	53534
In Starling Connect Connector for JIRA Server, the <i>Get Specific Group</i> request, that has special characters from the Supervisor returns <i>404 Not Found</i> error.	51276
When an incorrect SCIM or target URL, such as an invalid cloud instance URL is configured in the Supervisor, the error code 404 and error message <i>Invalid cloud endpoint</i> must be displayed. However, the expected error code and message are not displayed in all the cases. This issue is applicable to all the connectors.	54659
In Starling Connect Connector for Amazon S3 AWS, addition or removal of entitlements for Groups is currently not supported by One Identity Manager.	79680
In Starling Connect Connector for Dropbox, a user is not able to update optional field values to blank values.	88925
In Starling Connect Connector for Dropbox, results are displayed to an end user, even when the startIndex value is greater than the TotalResults.	88927
In Starling Connect Connector for RSA Archer, an error is displayed if an user is created using an incorrect locale value .	98585
In Starling Connect Connector for RSA Archer, when the last pagination request is sent, the next cursor comes up.	99100
In Starling Connect Connector for Insightly, certain Group names are not displayed in the Manager console, in the 7.1.4 version of One Identity Manager.	102317
In Starling Connect Connector for Insightly, an error is returned, in the Target system browser for Groups, in the 8.0.2 version of One Identity Manager, with HF 30426	102344
In Starling Connect Connector for Egnyte, a successful response is received when the <i>Get User</i> operation is requested, when the Password field is left	104777

Known issue	Issue ID
blank.	
In Starling Connect Connector for Egnyte, creation of user fails if a special character is provided in the userName field.	105413
In Starling Connect Connector for Egnyte, the sync fails if the number of groups is more than ten for a trial account.	105441
In Starling Connect Connector for Coupa, Groups and Roles membership operations are not supported in the current release. Support for the feature would be available in the subsequent release.	125325
In Starling Connect Connector for Atlassian JIRA Confluence, the pagination for users is truncated to the first 1000 resources, beyond which the users are not displayed.	127066
In Starling Connect Connector for Atlassian JIRA Confluence, SCIM to UCI synchronization does not have all the user accounts as the email address is not available in the cloud user response.	127068
In Starling Connect Connector for Coupa, the implementation of Group and Role memberships are User centric operations. This is because the Coupa target system does not provide dedicated APIs to work with Groups and Roles object types. As a work around, the endpoint or client system has to be customized for successful integration of Groups and Roles memberships.	128542
When both the East US and West US App Services are not available, the 500 Internal Server Error, with the message "An Error occurred while sending the request", is displayed. This is because the Cloud application RSA Archer always returns the error message as 500 Internal Server Error. This issue is common for all connectors.	139480

Enhancements

The following is a list of enhancements implemented in this release of Starling Connect.

There are no enhancements in this release.

The following is a list of enhancements implemented in the previous releases of Starling Connect.

5 December 2019 enhancements

Table 15: Connector enhancements

Connector	Enhancements	Work item ID
Amazon S3 AWS	The connector is enhanced to support the configuration of entitlements for User and Group .	170686
SuccessFactors HR	The connector is enhanced to support the below listed additional attributes for: <ul style="list-style-type: none"> • Supervisor Configuration Parameters Minimal Attributes <ul style="list-style-type: none"> • BusinessUnit • EmpEmployment • JobCode • Position • PerPersonal • Supported objects and operations <ul style="list-style-type: none"> • JobCode • Position • EmpEmployment • PerPersonal 	171886

21 November 2019 enhancements**Table 16: Connector enhancements**

Connector	Enhancements	Work item ID
All connectors	Starling Connect is enhanced to support multiple versions of the same connector in the Starling production instance. Versioning of connectors enables administrators to choose the desired version that a customer wants to be on.	127554
Coupa	The connector is enhanced with the logic to handle custom attributes.	170546

7 November 2019 enhancements**Table 17: Connector enhancements**

Connector	Enhancements	Work item ID
Salesforce	The connector is enhanced to support the below listed additional attributes for:	167283

Connector	Enhancements	Work item ID
	<ul style="list-style-type: none"> • User mapping <ul style="list-style-type: none"> • Groups[].value(OnDemand) • Entitlements[].Value • Entitlements[].Display • Roles[].Value • Roles[].Display • Role mapping <ul style="list-style-type: none"> • Id • DisplayName • Members[].value • Members[].display • Meta.Created • Meta.LastModified • Profile mapping <ul style="list-style-type: none"> • Id • DisplayName • Members[].value • Members[].display • Meta.Created • Meta.LastModified • Permission Sets mapping <ul style="list-style-type: none"> • Id • DisplayName • Members[].value • Members[].display • Meta.Created • Meta.LastModified

Connector	Enhancements	Work item ID
All connectors	Ability to test the connection before saving the connection parameters and credentials to ensure connectivity with the target instance.	111615

17 October 2018 enhancements

Table 26: RSA connector enhancement

Connector	Enhancements	Work item ID
RSA Archer	The connector is enhanced to process <i>RSA Archer ISMS Groups</i> Object types in ready-only mode.	78017

Deprecated features

The following feature is deprecated in the previous release of Starling Connect.

21 November 2019 deprecated features

- Bitbucket Connector has been decommissioned due to API restrictions by the target system in accordance with GDPR implications.

System requirements

Before using the 11 Decemeber 2019 Starling Connect release, ensure that your system meets the below mentioned requirements.

Table 27: Supported browsers

Browser	Minimum OS/Platform	Version
Internet Explorer	Windows 7	11
Google Chrome	Windows 10, Android, Mac OS X Yosemite	Latest
Mozilla Firefox	Windows 8.1	Latest
Microsoft Edge	Windows 10	Latest
Safari	Mac OS X Yosemite, iOS 8	See OS/Platform
Opera	Windows 7, Mac OS X Yosemite	Latest

Supported client platforms

The below mentioned **One Identity Manager** versions are verified to work with Starling Connect:

- 7.1.3
- 7.1.4
- 8.0.1
- 8.0.2
- 8.1.0

NOTE: The below mentioned versions of One Identity Manager are not verified to work with the JIRA Server connector:

- 7.1.4
- 8.0.2
- 8.1.0

NOTE: The links to different hotfixes, that are applicable for different versions of One Identity Manager, are mentioned below.

- 7.1.3
 - <https://support.oneidentity.com/download-install-detail/6091441>
 - <https://support.oneidentity.com/starling-connect/kb/260186/one-identity-manager-7-1-3-hotfix-30002>
- 7.1.4
 - <https://support.oneidentity.com/download-install-detail/6091443>
- 8.0.1
 - <https://support.oneidentity.com/download-install-detail/6091445>
 - <https://support.oneidentity.com/starling-connect/kb/260185/one-identity-manager-8-0-1-hotfix-30002>
- 8.0.2
 - <https://support.oneidentity.com/download-install-detail/6091447>

NOTE: For consuming Starling Connect HR connectors (for example, SuccessFactorsHR) into the One Identity Manager Synchronization Client, the One Identity Manager CHS module has to be installed and configured. You can download the appropriate CHS module by navigating through links below:

- 7.1.3
 - <https://support.oneidentity.com/identity-manager/7.1.3/download-new-releases>
- 7.1.4
 - <https://support.oneidentity.com/identity-manager/7.1.4/download-new-releases>
- 8.0.1
 - <https://support.oneidentity.com/identity-manager/8.0.1/download-new-releases>
- 8.0.2
 - <https://support.oneidentity.com/identity-manager/8.0.2/download-new-releases>
- 8.1.0
 - <https://support.oneidentity.com/identity-manager/8.1/download-new-releases>

Additional hardware and software requirements

In addition to the browser compatibility requirements for Starling (see [Supported browsers](#)), some additional requirements may need to be met. See the table below for information on those requirements.

The services available through Starling may also include additional hardware and software requirements. Any requirements that must be met by users of a particular service are available within the documentation specific to the service.

Table 28: Additional One Identity Starling requirements

Work accounts	To authenticate using a work account, you need the following: <ul style="list-style-type: none">Fully configured Azure AD tenant capable of authenticating usersIn cases where an organization has registered an Azure AD tenant but it is not fully synchronized or an account has not yet been added, the owner of that account will be unable to use Starling at that time unless they register independently from the organization.
Event forwarding	To use the event forwarding feature, you need the following: <ul style="list-style-type: none">A service that supports SYSLOG (for example, Loggly)

Product licensing

Use of this software is governed by the Software Transaction Agreement found at <http://www.oneidentity.com/legal/sta.aspx> and the SaaS Addendum at <http://www.oneidentity.com/legal/saas-addendum.aspx>. This software requires an activation or license key to operate.

Globalization

This section contains information about installing and operating this product in non-English configurations, such as those needed by customers outside of North America. This section does not replace the materials about supported platforms and configurations found elsewhere in the product documentation.

This release is Unicode-enabled and supports any character set. In this release, all product components should be configured to use the same or compatible character encodings and should be installed to use the same locale and regional options. This release is targeted to support operations in the following regions: North America, Western Europe and Latin America, Central and Eastern Europe, Far-East Asia, Japan. It supports bidirectional writing (Arabic and Hebrew). The release supports Complex Script (Central Asia – India, Thailand).

About us

One Identity solutions eliminate the complexities and time-consuming processes often required to govern identities, manage privileged accounts and control access. Our solutions enhance business agility while addressing your IAM challenges with on-premises, cloud and hybrid environments.

Contacting us

For sales or other inquiries, visit <https://www.oneidentity.com/company/contact-us.aspx> or call +1-800-306-9329.

Technical support resources

Technical support is available to One Identity customers with a valid maintenance contract and customers who have trial versions. You can access the Support Portal at <https://support.oneidentity.com/>.

The Support Portal provides self-help tools you can use to solve problems quickly and independently, 24 hours a day, 365 days a year. The Support Portal enables you to:

- Submit and manage a Service Request
- View Knowledge Base articles
- Sign up for product notifications
- Download software and technical documentation
- View how-to-videos at www.YouTube.com/OneIdentity
- Engage in community discussions
- Chat with support engineers online
- View services to assist you with your product
