Migration Manager for Active Directory Resource Kit User Guide
Updated - January 2020
Version - 8.15

Contents

Introduction

Migration Manager Resource Kit is a collection of utilities that can work alone or in concert to customize the migration process.

The following utilities are available in this release:

- Active Directory Cleanup Utility

System Requirements

Migration Manager Resource Kit can be installed on an Intel-based computer where Migration Manager is installed running any of the following operating systems:

- Microsoft Windows Server 2019
- Microsoft Windows Server 2016
- Microsoft Windows Server 2012
- Microsoft Windows Server 2012 R2
- Microsoft Windows Server 2008 R2 Service Pack 1 or higher
- Microsoft Windows Server 2008 Service Pack 1 or higher (x86 edition)
- Microsoft Windows Server 2008 Service Pack 1 or higher (x64 edition)
- Microsoft Windows 7 Service Pack 1 or higher (x86 edition)
- Microsoft Windows 7 Service Pack 1 or higher (x64 edition)

Active Directory Cleanup Utility

This utility is designed to help you clean up either or both of the following:

- Migrated objects' Active Directory service attributes used by Migration Manager
- Microsoft Exchange mail redirection addresses

Using Active Directory Cleanup Utility

The utility provides the Active Directory Cleanup Wizard and should be launched locally from the computer where it is installed.

The account used for start the Active Directory Cleanup Wizard must have Full Admin rights to the migration project. To delegate these rights, perform the following steps:

1. In Migration Manager Console, right-click the **Migration Project** node and select **Delegate**.
2. Browse for the account to which you want to delegate the permissions.
3. Select the **Full Admin** role for that account from the role list.
4. Click **Add Account**. This will add the account to the **Delegated accounts** list.
5. Click **OK**.

To start the Active Directory Cleanup Wizard, run the **ADCleaner.exe** file from the installation folder. Follow the steps offered by the wizard to specify where and what to clean up. The following options on the Cleanup Options step of the wizard control what kind of data to clear:

- Cleanup service attributes
- Cleanup mail redirection addresses

Select either or both of the options, as necessary.

About us

Quest provides software solutions for the rapidly-changing world of enterprise IT. We help simplify the challenges caused by data explosion, cloud expansion, hybrid datacenters, security threats, and regulatory requirements. We are a global provider to 130,000 companies across 100 countries, including 95% of the Fortune 500 and 90% of the Global 1000. Since 1987, we have built a portfolio of solutions that now includes database management, data protection, identity and access management, Microsoft platform management, and unified endpoint management. With Quest, organizations spend less time on IT administration and more time on business innovation. For more information, visit www.quest.com.

Technical support resources

Technical support is available to Quest customers with a valid maintenance contract and customers who have trial versions. You can access the Quest Support Portal at https://support.quest.com.

The Support Portal provides self-help tools you can use to solve problems quickly and independently, 24 hours a day, 365 days a year. The Support Portal enables you to:

- Submit and manage a Service Request
- View Knowledge Base articles
- Sign up for product notifications
- Download software and technical documentation
- View how-to-videos
- Engage in community discussions
- Chat with support engineers online
- View services to assist you with your product
