

Quest® Secure® Copy 7.6

What's New

July 2020

Quest Secure Copy is a comprehensive solution for data duplication, local group and user migration, share migration, and NTFS permissions configuration. Secure Copy permits seamless migration, allowing an administrator to copy files and directories on NTFS partitions while keeping the security intact, creating shares, and migrating local groups. All of this functionality is available in an easy to use interface, which keeps you updated on copy progress, as well as any errors that may occur.

This document highlights key features new in this release. For more information about these or any features, see the Quest Secure Copy 7.6 User Guide.

- [Miscellaneous enhancements](#)

Miscellaneous enhancements

- Added the ability to generate logs when the process of resetting folder attributes starts and ends.
- Replaced CRC32 checksum algorithm with SHA512.
 - The option **Perform SHA512 checksum verification on copied files** is now available on **Jobs > Performance > Verification**.
- Added options to retry on network errors when the copy process starts.
 - Added the options **Retry attempts on network errors** and **Seconds between retries on network errors** on **Tools > New Job Options > Performance Settings**.
 - Added the following options on **Jobs > Performance**:
 - **Retry on network error**
 - **Retry Attempts**
 - **Seconds Between Retries**
- Added the ability to provide statistical information in Summary Report when the logging level is Errors only.
- Improved Link Updater for Access to support .accdb file format.
- Added the ability to allow commas in a source path imported from a file.
- Added the ability to sort job list alphabetically.
 - Added the option **Sort job list alphabetically** on **Tools > Preferences > General Settings**.
- Improved Summary Report to provide more detailed statistical information.

About us

Quest provides software solutions for the rapidly-changing world of enterprise IT. We help simplify the challenges caused by data explosion, cloud expansion, hybrid datacenters, security threats, and regulatory requirements. We are a global provider to 130,000 companies across 100 countries, including 95% of the Fortune 500 and 90% of the Global 1000. Since 1987, we have built a portfolio of solutions that now includes database management, data protection, identity and access management, Microsoft platform management, and unified endpoint management. With Quest, organizations spend less time on IT administration and more time on business innovation. For more information, visit www.quest.com.

Technical support resources

Technical support is available to Quest customers with a valid maintenance contract and customers who have trial versions. You can access the Quest Support Portal at <https://support.quest.com>.

The Support Portal provides self-help tools you can use to solve problems quickly and independently, 24 hours a day, 365 days a year. The Support Portal enables you to:

- Submit and manage a Service Request
- View Knowledge Base articles
- Sign up for product notifications
- Download software and technical documentation
- View how-to-videos
- Engage in community discussions
- Chat with support engineers online
- View services to assist you with your product.
