

# Quest® Migration Manager for Email Archives 10.0

## Release Notes

### August 2020

These release notes provide information about the Quest® Migration Manager for Email Archives 10.0 release.

Topics:

- [About this release](#)
- [New features](#)
- [Enhancements](#)
- [Supported Source to Target Environment Combinations](#)
- [Product licensing](#)

## About this release

Migration Manager for Email Archives 10.0 is a major release with enhanced features and functionality. See [New features](#) and [Enhancements](#) for details. These notes can also be found on the Quest Support Portal at <https://support.quest.com>.

**i** | **IMPORTANT:** Special considerations might be necessary when upgrading large item databases.

## New features

The items below were added to Migration Manager for Email Archives 10.0:

Table 1. New Features

Enhancement	Issue ID
Journal migration was split out into a separate product offering called Journal Commander.	90187

# Enhancements

Table 1. General enhancements

Enhancement	Issue ID
Dependency on TLS 1.0 and 1.1 during installation was removed.	94341
A Default policy was introduced for the RenameSourceArchive command.	59111
Support was added for SFTP (Secure File Transfer Protocol).	86411
Exchange Online PowerShell commands can now be executed over modern authentication (OAuth).	89511
Provisioned leaver mailboxes are now limited to the value of the maximum rolling license count.	59093
For Exchange and Office 365 migrations, the ability was added to auto-disable mappings when specified errors are returned.	59098
The ability was added to permanently fail items for import on specified errors.	58336
Obsolete workflows are now hidden.	92709
The <b>Failed Items</b> page now shows tabs that separate out (and display the count of) failed items by type: import and export failures, and sender recipient collection failures in journal transformation migrations.	92743
It's possible to automatically import items without Office 365 retention mappings.	93667
PST files can now be rolled over based on size or item count. It's possible to configure the item count threshold for PSTs, which is the maximum number of items that can be in one PST.	89956
Support for Quest Archive Manager 5.7 was validated.	91577
Item routing was enhanced.	59090
O365 sync won't assign a mailbox to use when two users have the same PrimarysmtpAddress and different UPNs. A new setting is available on the Office 365 Module where you can specify the preferred domain to be used when addresses are unclear.	95269
These commands were enhanced to contain information about source and target tags: <ul style="list-style-type: none"><li>• Get-ASStage1Statistics</li><li>• Get-ASStage2Status</li><li>• Get-ASMappings</li></ul>	95368

Table 2. Performance improvement

Enhancement	Issue ID
It's now possible to configure the number of concurrent ingestion batches via OAuth. The default number of batches is 5.	93062

## Product licensing

You need either a trial or full license to use Migration Manager for Email Archives. If you have questions about your license, contact your sales representative.

### ***To activate your license during the installation***

- 1 During the installation you will be asked for a license file.
- 2 Click **Browse** and navigate to your license file.
- 3 Click **Open**.
- 4 Make sure that the license verification succeeded.

### ***To activate or update your license after the installation***

- 1 Copy the license file into the **%PROGRAMFILES%\Quest\Migration Manager for Email Archives\WebService\bin** folder.

# About us

Quest creates software solutions that make the benefits of new technology real in an increasingly complex IT landscape. From database and systems management, to Active Directory and Office 365 management, and cyber security resilience, Quest helps customers solve their next IT challenge now. Around the globe, more than 130,000 companies and 95% of the Fortune 500 count on Quest to deliver proactive management and monitoring for the next enterprise initiative, find the next solution for complex Microsoft challenges and stay ahead of the next threat. Quest Software. Where next meets now. For more information, visit [www.quest.com](http://www.quest.com).

## Technical support resources

Technical support is available to Quest customers with a valid maintenance contract and customers who have trial versions. You can access the Quest Support Portal at <https://support.quest.com>.

The Support Portal provides self-help tools you can use to solve problems quickly and independently, 24 hours a day, 365 days a year. The Support Portal enables you to:

- Submit and manage a Service Request
- View Knowledge Base articles
- Sign up for product notifications
- Download software and technical documentation
- View how-to-videos
- Engage in community discussions
- Chat with support engineers online
- View services to assist you with your product.
