About this release

This article contains Migration Manager for Email Archives 10.1 release notes. Review the Revision Notes for late breaking news and updates. These notes can also be found on the Quadrotech FTP Server.

Notes:

- Upgrade instructions are available [here](#).
- Special considerations might be necessary when upgrading large item databases.

Migration Manager for Email Archives 10.1 is a minor release, with new features and functionality. See [New features](#) and [Enhancements](#).

New features

New features in Migration Manager for Email Archives 10.1:

Table 1. New features

Feature	Issue ID
A new module was introduced that writes native archive output files to the desired storage location. This new module optionally converts MSG files to EML and writes them to a storage provider of choice at scale and speed. This enables ingestion to Azure, Amazon S3, and UNC.	87658

Enhancements

The following is a list of enhancements implemented in Migration Manager for Email Archives 10.1.

Table 2. General enhancements

Enhancement	Issue ID
The Start-ASScheduledTask PowerShell command was replaced with SetASScheduledTask. And, Get-ASScheduledTask the command was introduced. It returns all or a certain scheduled task.	98855
A PowerShell command was introduced (Get-ASLicense) that returns license information.	98183
A Powershell command was introduced (Get-ASProgressStatistics) that returns progress and performance statistics information.	98180
A PowerShell command was introduced (Get-ASArchive) that returns data from directory database archive tables.	96594
Support was validated for Exchange 2019 as a target .	96065
The ability to test OAuth/Azure/Amazon credentials was added to the Credential Editor.	94822
The ability to check free/used space and watermarks was added to the System Health page of the Storage Import Module. See more here .	94821
Multiple collections can no longer run against the same archive simultaneously.	63274
A list of scheduled tasks was added to the System Health page. From the list, you force a scheduled task to run. See more here .	58496

An option was added to the System Health page that allows problematic ingestion accounts to be disabled. See more here .	58473
UserPrincipalName was added as an optional parameter on the GetASMailbox PowerShell command.	58350

Table 3. Performance Improvements

Enhancement	Issue ID
The Health Check WebAPI was enhanced, so now a parent node shows information about application health (such as UI, database, web service, license health).	91576
Mapping deletion logic was moved to the core service.	59017

Supported Sources and Targets

For a list of supported sources and targets, [go here](#).

For a list of software applications that are compatible with Migration Manager for Email Archives, [go here](#).

Product licensing

You need either a trial or full license to use Migration Manager for Email Archives. If you have questions about your license, contact your sales representative.

To activate your license during the installation

1. During the installation you will be asked for a license file.
2. Click **Browse** and navigate to your license file.
3. Click **Open**.
4. Make sure that the license verification succeeded.

To activate or update your license after the installation

- Copy the license file into the %PROGRAMFILES%\Quest\MMigration Manager for Email Archives\WebService\bin folder.

About us

Quest creates software solutions that make the benefits of new technology real in an increasingly complex IT landscape. From database and systems management, to Active Directory and Office 365 management, and cyber security resilience, Quest helps customers solve their next IT challenge now. Around the globe, more than 130,000 companies and 95% of the Fortune 500 count on Quest to deliver proactive management and monitoring for the next enterprise initiative, find the next solution for complex Microsoft challenges and stay ahead of the next threat. Quest Software. Where next meets now. For more information, visit www.quest.com.

Technical support resources

Technical support is available to Quest customers with a valid maintenance contract and customers who have trial versions. You can access the Quest Support Portal at <https://support.quest.com>.

The Support Portal provides self-help tools you can use to solve problems quickly and independently, 24 hours a day, 365 days a year. The Support Portal enables you to:

- Submit and manage a Service Request
- View Knowledge Base articles
- Sign up for product notifications
- Download software and technical documentation
- View how-to-videos
- Engage in community discussions
- Chat with support engineers online
- View services to assist you with your product.
