Enhancements

The following is a list of enhancements implemented in On Demand Migration.

SharePoint Migration

ID	Description
563772	Files that were skipped during a migration to the target due to conflict resolution rules are now reported in the migration report available on the Reports tab.

Resolved Issues

SharePoint Migration

ID	Issue
568559	Check for labels on Office and PDF files did not identify labeled files in all cases
562852	Check for new or modified files in incremental repair would not identify files if modified date was earlier than created date.
569276	Site discovery task initiated from Teams provisioning task fails if sites have been moved to a different region in a multi-geo tenant.

General known issues

Issue	ID
If the Skip if the target file is the same version or newer option is selected, files that were previously migrated and for which additional sharing permissions have been added may not appear	ODM-1112

Issue	ID
in the Shared With Me panel of users who have been granted this additional sharing permission. Workaround: Remove and re-grant permissions directly to previously migrated files in the target.	
Statistics related to permissions can be incorrect in some specific cases.	ODM-872
Deletion of target object after the migration may not be reported.	ODM -855
In case the created Mailbox Switch task is edited and the mail forwarding direction is changed, all selected notification messages will be readdressed, but the wizard may not display notification settings correctly. Workaround: Select Run later and finish the task to re-open it. After the task is re-opened you can see the actual notification settings. Now you can schedule the task as necessary.	N/A
If you remove a tenant that is currently used in migration projects from On Demand, the affected projects can still be opened without any alerts or notifications. However, all project tasks will fail.	N/A
Mail Migration Task Wizard cannot be finished if you add and then clear the value in Exclude mail before and Exclude mail after fields. Workaround: Close the wizard and create a task anew.	ODM-176
Double-clicking Finish button in wizards may result in creating several duplicate tasks.	DO-728
All accounts must be matched or migrated <i>before</i> migrating the groups they belong to, or with the same task that migrate groups. Otherwise, the newly migrated accounts will not be added to the target groups. Workaround: Re-migrate the affected groups after all their members are migrated.	N/A
If you migrate a mail-enabled group with non mail-enabled members, some of those users might not be added to the target group. The following error is displayed for each affected user: " Group membership migration completed with errors. Couldn't find object [User GUID]. Please make sure that it was spelled correctly or specify a different object. " Workaround: Re-migrate the affected groups.	ODM-309
Deleting or moving a file in the OneDrive storage that is currently being migrated may result in aborting the storage transfer with Content transfer failed error. Other storages from the migration task are not affected. Workaround: Re-migrate the failed storage.	ODM-335
A search query entered by user to filter content may be lost in case the user switches tab.	ODM-293
Migration of Microsoft Office 365 groups and security groups with dynamic membership is not supported.	ODM-37
Migration fails if internal account is matched with external account and the following message is reported: Property usageLocation is invalid / Insufficient privileges to complete the operation	ODM-1576
Migration of security group to distribution list or to mail-enabled security group fails (this migration cannot be supported) and the following message is reported: Unable to update the specified properties for objects that have originated within an external service	ODM-1566
Migration of Office 365 group to distribution list or to mail-enabled security group fails (this migration cannot be supported) and the following message is reported: REST API is not yet supported for this mailbox.	ODM -1567
After the migration, the calendar invites with Teams links may need to be updated.	ODM -788
In case of re-migration, On Demand Migration re-migrates mail and calendar items that have changed in the source mailbox to the target mailbox. Also, calendar items that have been removed from the source mailbox will be removed from the target mailbox. Re-migration of other types of items that have been modified or deleted in the source mailbox is not supported.	4781288-1
Address Rewriting	4783213-1

Issue	ID
Due to Microsoft's Exchange Online limits on messages sent from the tenant that are calculated according to purchased Exchange Online licenses, some of the sent messages exceeding this limit will not be delivered within 24 hours and will wait in the queue to be send next day. If waiting time will be longer than 24 hours, the sender will receive an NDR.	
Workaround: To increase bandwidth you need to purchase more Exchange Online licenses	

Account migration known issues

Issue	ID
Resource Processing is not available when GCC High tenants are used. Resource Processing is only available with commercial tenants.	251283
Source UPN and Primary SMTP will be used after migration for existing target hybrid accounts.	ODM-1251
In case of re-migration of hybrid account the Migration task state may appear to be completed before the actual completion.	ODM-1174
Source user mailbox is required to be kept to ensure receiving of mail messages addressed to this mailbox after migration. To remove these mailboxes you can manually configure forwarding in on-premises environment for all affected accounts after target mailboxes are provisioned.	ODM-1345
Hybrid accounts has New status even in case these accounts are in progress.	ODM-1053
Matching task may hang with In progress state in case on-premises connection credentials are not configured. No events are reported.	ODM-1383
Matching task may hang with In progress state in case of any issues related to connection problem of integration service, e.g., secret is not installed properly or unavailable.	ODM-1469
In case matched target hybrid account is removed intentionally, but source account is selected for the migration task, the target object will be provisioned and no event is reported.	ODM-1292
In case of any target conflicts related to existing objects in on-premises part processed by Quest Migration Manager, events generated by Quest Migration Manager will not appear in Events.	ODM-1255
Migration Task progress may be reported incorrectly. Refer to task details for actual information.	ODM-1175
Mail flow is not currently displayed for migrated objects.	ODM-1376
Mail addressed to target Room/Equipment/shared mailbox will not be redirected to source. Reason: forwarding from target to source after account migration for Room / Equipment / shared mailbox is not set.	ODM-1344
In case object is removed in source, during re-migration this object cannot be included in migration scope, but object status remains unchanged. In task details this object status is New .	ODM-1331
Migration tasks may hang with In progress state in case of any issues related to integration with Quest Migration Manager. No events are reported.	ODM-1332
Resource processing To allow target users access source SharePoint, linked guest users were created in the source and On Demand Migration immediately attempts to grant these user accounts necessary direct permissions. It can take time for guest accounts to replicate to SharePoint, which can result in a "User not found" error message for a guest account that has not yet been replicated during granting permissions. Workaround: Retry the SharePoint processing later.	ODM-1878

Mailbox migration known issues

Issue	ID
A Meeting link migration task does not preserve the "time zone" settings for the calendar items. The meeting start time and the end time properties will be converted to UTC.	353269
Static watermarks cannot be updated or removed when a sensitivity label is changed or removed.	557495
Incremental migration will not include items if only sensitivity labels are added or updated.	557496
AIP does not provide a method to process sensitivity labels of password protected files, therefore email/calendar attachments and OneDrive/SharePoint files that are password protected are migrated as-is, preserving their source sensitivity labels.	568017
If a user migrates items without sensitivity labels and then wants to migrate with the labels, a full migration must be performed.	557497
When migrating a file with a time-based sensitivity label, the label's expiration settings will be reset in the target, making the previously expired source file accessible in the target again.	557502
You must discover and match Sensitivity Labels if you plan to migrate email items with label. Otherwise the migration will fail with the error message: "Failed to prepare migration plan, no mapping exists for labels."	557504
Mail messages flagged in the source tenant will have the corresponding flag in the target tenant after migration, but they will not be displayed in the "Flagged Email" list of "To Do" section	566680

OneDrive migration known issues

Issue	ID
If Migrate Sharing Link Permissions option is selected, some link sharing permissions will not migrate properly if the user has shared this file or folder with more than 30 users. Only 30 users will have permissions from the Sharing Links, while others will not be processed due to a Microsoft limitation.	ODM-1640
Static watermarks cannot be updated or removed when a sensitivity label is changed or removed.	557495
Incremental migration will not include items if only sensitivity labels are added or updated.	557496
AIP does not provide a method to process sensitivity labels of password protected files, therefore email/calendar attachments and OneDrive/SharePoint files that are password protected are migrated as-is, preserving their source sensitivity labels.	568017
If a user migrates items without sensitivity labels and then wants to migrate with the labels, a full migration must be performed.	557497
External file with non-encrypted sensitivity labels does not fail to migrate, migrate to target and preserve their external labels.	557500
When migrating a file with a time-based sensitivity label, the label's expiration settings will be reset in the target, making the previously expired source file accessible in the target again.	557502
Microsoft supports the following file types for sensitivity labels: .xls, .xlt, .xla, .xlam, .xlm, .ppa, .ppam as mentioned in the article: https://learn.microsoft.com/en-us/purview/sensitivity-labels-sharepoint-onedrive-files . However these are not supported in ODM.	557503

Public folder migration known issues

Issue	ID
There is currently no way to stop running tasks.	PFM-76
After migration to the target, the folder name remains unchanged, even the original source folder has been renamed. On Demand Migration does not support renaming folders.	PFM-77

SharePoint migration known issues

Issue	ID
When using collections with On Demand Migration for SharePoint, if a site is added to a collection after running a Discover SharePoint Contents task for the site, the child objects will not be added to the collection. Re-run the Discover SharePoint Contents task for the site to add the child objects to the collection.	
When using collections with On Demand Migration for SharePoint, if a SharePoint object is added to a collection without its parent or child elements, the SHOW PARENT and SHOW CONTENTS buttons may be active but will link to a blank a filtered list because the child or parent is not included in the collection.	
When using collections with On Demand Migration for SharePoint, note that the Remove from Collection and Remove Collection functions are not yet available.	
Files and List Items cannot be migrated if same entities exist in target recycle bin.	163227,179261
The following events may be reported while migrating some folders from Document Libraries connected to Microsoft Teams: A file or folder with the name ... already exists... and Failed to lookup file info of object... The migration proceeds as expected.	173081
After migration the system account is specified as an author of migrated folder instead of the source folder author.	171641
Web address of this view in List View settings cannot be updated due to SharePoint limitations.	169946
Migrated discussion board replies are not tagged as "Best reply" on target.	157005
Custom content type assigned to documents is not migrated. All documents will have the default content type on target.	161588
Discussion List created by the site Community feature is renamed to <i>Community Discussion</i> in Team site (STS#3 template.)	168288
Files and list items are not migrated to subsites with the following characters in the URL: <, >, &, ", '.	169663
Site collection status is not updated if the migration task includes more than one site collection.	161760
The search field shows a limited number of characters. Only the first 22 characters are visible for the long search queries.	164683
Hub settings for sites located in non-central regions of a multi-geo tenant cannot be migrated. The hub and spoke relationship for sites in non-central regions must be built manually after the site migrations are complete.	324054
Out-of-the box list items get duplicated when migrating for the first time	413379
Conflict resolution rules will not be applied to Site Pages and Site Assets system libraries	424578
Sharing links used in web part and navigation links are not migrated.	531534

Issue	ID
The "Current" template shown in the Change the Look settings of the target will be the default Office template instead of the actual current template used on the target site.	531534
Microsoft has suggested a 2 GB size limit for OneNote documents. Although it is not enforced, OneNote documents above the 2 GB limit cause the migration to fail. See Restrictions and limitations in OneDrive and SharePoint - Microsoft Support .	541474
Static watermarks cannot be updated or removed when a sensitivity label is changed or removed.	557495
Incremental migration will not include items if only sensitivity labels are added or updated.	557496
If a user migrates items without sensitivity labels and then wants to migrate with the labels, a full migration must be performed.	557497
External File Mapping and Migration for encrypting sensitivity label is not supported.	557498
Sensitivity label that only applies to emails, is applied on target migrated file when incompatible mapping is set.	557499
AIP does not provide a method to process sensitivity labels of password protected files, therefore email/calendar attachments and OneDrive/SharePoint files that are password protected are migrated as-is, preserving their source sensitivity labels.	568017
External file with non-encrypted sensitivity labels is migrated to the target tenant and preserved.	557500
When migrating a file with a time-based sensitivity label, the label's expiration settings will be reset in the target, making the previously expired source file accessible in the target again.	557502
Microsoft supports the following file types for sensitivity labels: .xls, .xlt, .xla, .xlam, .xlm, .ppa, .ppam as mentioned in the article: https://learn.microsoft.com/en-us/purview/sensitivity-labels-sharepoint-onedrive-files . These file types are not supported in ODM.	557503

Teams migration known issues

Issue	ID
<p>If the external sharing settings of the target tenant is more restrictive than the settings in the source tenant, then Office 365 groups and SharePoint items cannot be migrated to the target tenant.</p> <p>Workaround: Ensure that sharing settings in the target tenant is the same or less restrictive than the source tenant. You must create a fresh task to migrate the items.</p>	259757
On Demand cannot migrate a file if the SharePoint admin center (under Settings Site Creation) has been used to change the default URL.	240044
Meeting links in Teams calendar items of migrated teams don't work because the links still point to source tenant.	196069
Tabs will not be created in the target channels during migration due a limitation of the Microsoft API. Microsoft creates tabs automatically during teams creation in the target tenant.	492538
<p>Resource processing If EDU team group has been migrated in the Account Migration project first and then this EDU team is provisioned in the Teams Migration project, the error "Request failed with BadRequest status code (Bad Request)" is reported.</p> <p>Workaround: Delete the EDU team group created by Account Migration, then perform discovery and provision with Teams Migration project.</p>	N/A

Issue	ID
When teams are provisioned with the option to merge with an existing team in the target tenant and a new channel is created with the original name plus suffix, the SharePoint folder for the new channel retains the original name.	345807
When two or more users are participants in a chat, the chat migration task event is not linked to any particular user.	256913
Links to attachments in chats that are migrated and archived cannot be opened from the Conversation History in the Teams client if you left-click the link. Workaround: Right-click the attachment and select Open Link in New Tab or Open Link in New Window from the context menu.	313562
Replies to private chats are migrated as regular chats but the reference to the original chat is not retained.	339662
Unexpected error occurs in a chat discovery task when matched users are deleted in the source tenant	391675
When the same chat is migrated simultaneously by two tasks, a failure in one task leads to a failure in the other with the following error message: <code>The initiator <service-id> is not a member of the roster <chat-id></code>	392613
If a user is a participant in a group chat in the source tenant, the chat will appear in the target tenant for the same user after migration even if the chat was deleted by the user from the source tenant.	426538
Loop Components in chats are not migrated.	425482
ODM will migrate only valid trusted senders and domains and up to 1024 valid items due to an EXO PowerShell limitation. ODM will migrate only valid blocked senders and domains and up to 65535 valid items due to an EXO PowerShell limitation.	524803

New Features

Module	Feature	Description
General Migration	Sensitivity Labels	Sensitivity labels are integrated into various Microsoft 365 apps, such as Outlook, Word, and Teams, and protect sensitive information across Microsoft 365 services (like Word, Excel, PowerPoint, SharePoint, and OneDrive) and other cloud services. They allow seamless classification and protection of emails, documents, and other content directly from within the apps. After you create the labels in the target tenant, you can discover and match the labels between your tenants to prepare On Demand Migration to migrate items with these labels across your tenants.

Enhancements

Module	ID	Description

New Features

Module	Feature	Description
Public Folder Migration	Public Folder Provisioning	The <i>New Public Folder Provision Task</i> wizard is now available. The provisioning task helps you with the following premigration preparations: Provisioning public folders in the target tenant, and resolve naming conflicts.

Enhancements

Module	ID	Description
Public Folder Migration	543692	The <i>Options</i> step of the <i>New Public Folder Migration Task</i> wizard has been streamlined. Some options have been moved to the <i>New Public Folder ProvisionTask</i> .

Incident Response Management

Quest Operations and Quest Support have procedures in place to monitor the health of the system and ensure any degradation of the service is promptly identified and resolved. On Demand Migration relies on Microsoft Azure infrastructure and as such is subject to the possible disruption of the related services.

You can view the following status pages:

- Quest On Demand: <https://status.quest-on-demand.com/>
- Azure Services: <https://azure.microsoft.com/en-ca/status/>
- AWS Services: <https://status.aws.amazon.com/>

System requirements

The following web browsers are supported with On Demand:

- Microsoft Internet Explorer 11
- Microsoft Edge
- Google Chrome (latest version)
- Mozilla Firefox (latest version)

System requirements for Desktop Update Agent deployment

Software Requirements

- Microsoft 365 (formerly Office 365 or MSO) 32-bit or 64-bit when Office re-activation option is selected
- Outlook 2016 (32-bit or 64-bit) or higher (Including Click to Run version and ISO version)
- OneDrive for Business (Most recent updates recommended)
- Microsoft Teams (Most recent updates recommended)
- Windows 7 (32-bit or 64-bit) or Windows 10 (32-bit or 64-bit)
- .NET 4.7.2 or higher
- Supports HTTPS Port 443

NOTE:

If OneDrive for Business, Microsoft Teams, or Office are not installed on the workstation, these applications will be skipped and will not impact any other applications present during the reconfiguration.

Authentication Requirements

- Multi-Factor Authentication (MFA)
- Active Directory Federation Services (AD FS)
- Single Sign On (SSO) with mixed authentication modes, such as:
 - Modern Authentication (ADAL)
 - Forms Authentication
 - Windows Integrated Authentication

Product Licensing

The following table shows the trial license quotas:

Module	License	Limitation
Accounts	5 Accounts	none
Email	5 Mailboxes	5 GB content per mailbox

Module	License	Limitation
OneDrive	5 Accounts	256 files or 256 MB per OneDrive account
SharePoint	5 SP sites	5 GB content per SharePoint site. ODMSP will not discover sites with more than 5 GB.
Teams / M365 Groups	5 Teams or Groups	5 GB content per Teams or M365 Groups
1x1 Chats	5 Accounts	The most recent 2 conversations and max 20 messages per conversation.

The Apache Software License, Version 2.0

January 2004 (<http://www.apache.org/licenses/>)

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sub-license, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims that can be licensed by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

- (b) You must cause any modified files to carry prominent notices stating that You changed the files; and
- (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and
- (d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

MICROSOFT .NET LIBRARY

MICROSOFT SOFTWARE LICENSE TERMS

MICROSOFT .NET LIBRARY

IF YOU COMPLY WITH THESE LICENSE TERMS, YOU HAVE THE RIGHTS BELOW.

1. INSTALLATION AND USE RIGHTS.

You may install and use any number of copies of the software to develop and test your applications.

2. THIRD PARTY COMPONENTS. The software may include third party components with separate legal notices or governed by other agreements, as may be described in the ThirdPartyNotices file(s) accompanying the software.

3. ADDITIONAL LICENSING REQUIREMENTS AND/OR USE RIGHTS.

a. DISTRIBUTABLE CODE. The software is comprised of Distributable Code. "Distributable Code" is code that you are permitted to distribute in applications you develop if you comply with the terms below.

i. Right to Use and Distribute.

- You may copy and distribute the object code form of the software.
- Third Party Distribution. You may permit distributors of your applications to copy and distribute the Distributable Code as part of those applications.

ii. Distribution Requirements. For any Distributable Code you distribute, you must

- use the Distributable Code in your applications and not as a standalone distribution;
- require distributors and external end users to agree to terms that protect it at least as much as this agreement; and
- indemnify, defend, and hold harmless Microsoft from any claims, including attorneys' fees, related to the distribution or use of your applications, except to the extent that any claim is based solely on the unmodified Distributable Code.

iii. Distribution Restrictions. You may not

- use Microsoft's trademarks in your applications' names or in a way that suggests your applications come from or are endorsed by Microsoft; or
- modify or distribute the source code of any Distributable Code so that any part of it becomes subject to an Excluded License. An "Excluded License" is one that requires, as a condition of use, modification or distribution of code, that (i) it be disclosed or distributed in source code form; or (ii) others have the right to modify it.

4. DATA.

a. Data Collection. The software may collect information about you and your use of the software, and send that to Microsoft. Microsoft may use this information to provide services and improve our products and services. You may opt-out of many of these scenarios, but not all, as described in the software documentation. There are also some features in the software that may enable you and Microsoft to collect data from users of your applications. If you use these features, you must comply with applicable law, including providing appropriate notices to users of your applications together with Microsoft's privacy statement. Our privacy statement is located at

<https://go.microsoft.com/fwlink/?LinkID=824704>. You can learn more about data collection and its use from the software documentation and our privacy statement. Your use of the software operates as your consent to these practices.

b. Processing of Personal Data. To the extent Microsoft is a processor or subprocessor of personal data in connection with the software, Microsoft makes the commitments in the European Union General Data Protection Regulation Terms of the Online Services Terms to all customers effective May 25, 2018, at <https://docs.microsoft.com/en-us/legal/gdpr>.

5. SCOPE OF LICENSE. The software is licensed, not sold. This agreement only gives you some rights to use the software. Microsoft reserves all other rights. Unless applicable law gives you more rights despite this limitation, you may use the software only as expressly permitted in this agreement. In doing so, you must comply with any technical limitations in the software that only allow you to use it in certain ways. You may not

- work around any technical limitations in the software;
- reverse engineer, decompile or disassemble the software, or otherwise attempt to derive the source code for the software, except and to the extent required by third party licensing terms governing use of certain open source components that may be included in the software;
- remove, minimize, block or modify any notices of Microsoft or its suppliers in the software;
- use the software in any way that is against the law; or
- share, publish, rent or lease the software, provide the software as a stand-alone offering for others to use, or transfer the software or this agreement to any third party.

6. EXPORT RESTRICTIONS. You must comply with all domestic and international export laws and regulations that apply to the software, which include restrictions on destinations, end users, and end use. For further information on export restrictions, visit www.microsoft.com/exporting.

7. SUPPORT SERVICES. Because this software is “as is,” we may not provide support services for it.

8. ENTIRE AGREEMENT. This agreement, and the terms for supplements, updates, Internet-based services and support services that you use, are the entire agreement for the software and support services.

9. APPLICABLE LAW. If you acquired the software in the United States, Washington law applies to interpretation of and claims for breach of this agreement, and the laws of the state where you live apply to all other claims. If you acquired the software in any other country, its laws apply.

10. CONSUMER RIGHTS; REGIONAL VARIATIONS. This agreement describes certain legal rights. You may have other rights, including consumer rights, under the laws of your state or country. Separate and apart from your relationship with Microsoft, you may also have rights with respect to the party from which you acquired the software. This agreement does not change those other rights if the laws of your state or country do not permit it to do so. For example, if you acquired the software in one of the below regions, or mandatory country law applies, then the following provisions apply to you:

a) Australia. You have statutory guarantees under the Australian Consumer Law and nothing in this agreement is intended to affect those rights.

b) Canada. If you acquired this software in Canada, you may stop receiving updates by turning off the automatic update feature, disconnecting your device from the Internet (if and when you re-connect to the Internet, however, the software will resume checking for and installing updates), or uninstalling the software. The product documentation, if any, may also specify how to turn off updates for your specific device or software.

c) Germany and Austria.

(i) Warranty. The software will perform substantially as described in any Microsoft materials that accompany it. However, Microsoft gives no contractual guarantee in relation to the software.

(ii) Limitation of Liability. In case of intentional conduct, gross negligence, claims based on the Product Liability Act, as well as in case of death or personal or physical injury, Microsoft is liable according to the statutory law.

Subject to the foregoing clause (ii), Microsoft will only be liable for slight negligence if Microsoft is in breach of such material contractual obligations, the fulfillment of which facilitate the due performance of this agreement, the breach of which would endanger the purpose of this agreement and the compliance with which a party may constantly trust

in (so-called "cardinal obligations"). In other cases of slight negligence, Microsoft will not be liable for slight negligence

11. **DISCLAIMER OF WARRANTY.** THE SOFTWARE IS LICENSED "AS-IS." YOU BEAR THE RISK OF USING IT. MICROSOFT GIVES NO EXPRESS WARRANTIES, GUARANTEES OR CONDITIONS. TO THE EXTENT PERMITTED UNDER YOUR LOCAL LAWS, MICROSOFT EXCLUDES THE IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE AND NON-INFRINGEMENT.

12. **LIMITATION ON AND EXCLUSION OF REMEDIES AND DAMAGES.** YOU CAN RECOVER FROM MICROSOFT AND ITS SUPPLIERS ONLY DIRECT DAMAGES UP TO U.S. \$5.00. YOU CANNOT RECOVER ANY OTHER DAMAGES, INCLUDING CONSEQUENTIAL, LOST PROFITS, SPECIAL, INDIRECT OR INCIDENTAL DAMAGES.

This limitation applies to (a) anything related to the software, services, content (including code) on third party Internet sites, or third party applications; and (b) claims for breach of contract, breach of warranty, guarantee or condition, strict liability, negligence, or other tort to the extent permitted by applicable law.

It also applies even if Microsoft knew or should have known about the possibility of the damages. The above limitation or exclusion may not apply to you because your state or country may not allow the exclusion or limitation of incidental, consequential or other damages.

Microsoft Public License (MS-PL)

This license governs use of the accompanying software. If you use the software, you accept this license. If you do not accept the license, do not use the software.

1. Definitions

The terms "reproduce," "reproduction," "derivative works," and "distribution" have the same meaning here as under U.S. copyright law. A "contribution" is the original software, or any additions or changes to the software. A "contributor" is any person that distributes its contribution under this license. "Licensed patents" are a contributor's patent claims that read directly on its contribution.

2. Grant of Rights

(A) **Copyright Grant-** Subject to the terms of this license, including the license conditions and limitations in section 3, each contributor grants you a non-exclusive, worldwide, royalty-free copyright license to reproduce its contribution, prepare derivative works of its contribution, and distribute its contribution or any derivative works that you create.

(B) **Patent Grant-** Subject to the terms of this license, including the license conditions and limitations in section 3, each contributor grants you a non-exclusive, worldwide, royalty-free license under its licensed patents to make, have made, use, sell, offer for sale, import, and/or otherwise dispose of its contribution in the software or derivative works of the contribution in the software.

3. Conditions and Limitations

(A) **No Trademark License-** This license does not grant you rights to use any contributors' name, logo, or trademarks.

(B) If you bring a patent claim against any contributor over patents that you claim are infringed by the software, your patent license from such contributor to the software ends automatically.

(C) If you distribute any portion of the software, you must retain all copyright, patent, trademark, and attribution notices that are present in the software.

(D) If you distribute any portion of the software in source code form, you may do so only under this license by including a complete copy of this license with your distribution. If you distribute any portion of the software in compiled or object code form, you may only do so under a license that complies with this license.

(E) The software is licensed "as-is." You bear the risk of using it. The contributors give no express warranties, guarantees, or conditions. You may have additional consumer rights under your local laws which this license cannot change. To the extent permitted under your local laws, the contributors exclude the implied warranties of merchantability, fitness for a particular purpose and non-infringement.
