

# One Identity Safeguard Remote Access

## Release Notes

### 1 February 2024

These release notes provide information about the 1 February 2024 One Identity Safeguard Remote Access release. For the most recent documents and product information, see <http://support.oneidentity.com/technical-documents/safeguard-remote-access/>.

## About this release

One Identity Safeguard Remote Access (SRA) is a Cloud Software as a Service (SaaS) that provides a client-less, browser-based secure terminal access to servers via integration with the One Identity Safeguard for Privileged Sessions (SPS) product.

SRA is a general release.

## New features

New features in the 1 February 2024 release of SRA:

- RDP sessions now support wallpaper settings. For more information about enabling backgrounds in RDP sessions, see [Enabling Wallpaper background](#).

**New features in previous releases of SRA:**

### 4 May 2023

- Choosing Collaborator role - On the **Collaborators** page, you can select the Collaborator's role when inviting them to your organization.
- The next generation of the SSH client (SSH-ng) file system now displays the last modified date of files.
- Next generation SSH client (in-production version) - Improvements entail setting display preferences, native clipboard support, adaptive resolution, and web link highlighting.
- CSV connections import - Add your connections to the SRA **Connections** page by importing them from a CSV file.
- The **Collaborators** page supports inviting SRA users with an **Administrator** role as a collaborator.
- Next generation SSH client (technology preview version) - Improvements entail setting display preferences, native clipboard support, adaptive resolution, screen-reader support, and web link highlighting.
- Semi-managed network - Improve your network performance and latency with the semi-managed network functionality of SRA by selecting which SPS to use for initiating a connection.
- Touch device support - One Identity Safeguard Remote Access (SRA) supports the management of remote sessions in most mobile browsers via touch devices, for example iPad or iPhone. Users can configure connections and open new session windows by touch or by using a stylus.
- Data center selection - Select which data center you would like to access: **United States** (for the United States data center) or **European Union** (for the European Union data center).
- Copy-paste functionality - Use the **Copy to clipboard** and **Paste** icons of the session window control panel to copy-paste text in an active remote session.
- Cloning a connection multiple times — Use the **Create another** option to clone a connection multiple times

## Enhancements

The following is a list of enhancements implemented in the 1 February 2024 SRA release.

**Table 1: General enhancements**

Enhancement	Issue ID
Updated .NET framework to version 8.	439234
Updated Apache Guacamole to version 1.5.4.	442041

**The following enhancements appeared in previous releases of SRA.**

### 9 August 2023

**Table 2: General enhancements**

<b>Enhancement</b>	<b>Issue ID</b>
Updated Apache Guacamole to version 1.5.2.	419763
Fixed an issue where the RDP client resolution was not set on initial load of the <b>Connections</b> page.	420837

## 4 May 2023

**Table 3: General enhancements**

<b>Enhancement</b>	<b>Issue ID</b>
Clarification on how to invite One Identity Starling collaborators with <b>Admin</b> role has been added. See <i>Inviting a One Identity Starling Collaborator</i> .	N/A

# Deprecated features

The following is a list of features that are no longer supported for SRA.

- There were no deprecated features for the 1 February 2024 release. See below for information regarding deprecated features in previous releases.

**The following features were deprecated in previous releases of SRA.**

## 4 May 2023

- Old SSH client deprecated - the next generation of SSH client are the used client and Terminal.
- While downloading files in an active remote session, files are not automatically downloaded when you click on them. Instead, clicking on them selects files for download.
- Isolated Browser preview functionality: Support for this preview functionality is discontinued, so the feature flag and the **Open Isolated Browser** button have been removed from the **Connections** page.

# Resolved issues

The following is a list of issues addressed in the 1 February 2024 SRA release.

**Table 4: General resolved issues**

Resolved Issue	Issue ID
Fixed an issue where pasting special characters into an RDP session would result in strange behavior.	431760
Fixed an issue where pasting between 32 and 255 characters into an RDP session would freeze the session.	431760

### The following issues were resolved in previous releases of SRA.

#### 9 August 2023

**Table 5: General resolved issues**

Resolved Issue	Issue ID
Fixed an issue where in case of SPS cluster, Search Master could be selected to initiate a session. Search Master can no longer be selected to initiate a session.	424159
<p><b>NOTE:</b> One Identity recommends the <b>Semi-Managed network</b> flag to be enabled when using an SPS cluster. To enable the <b>Semi-Managed network</b> flag, click  (Settings) and select <b>Safeguard Remote Access Settings</b>, and toggle <b>Semi-Managed network</b>.</p>	

#### 4 May 2023

**Table 6: General resolved issues**

Resolved Issue	Issue ID
The <b>Role assignment</b> option of the <b>Collaborators</b> page has been updated.	N/A
By default, when a new connection policy is created in SPS for RDP and/or SSH connections, an <b>Administrator</b> (or <b>root</b> ) connection tile appears for that connection policy on the SRA <b>Connections</b> page. If a user with Administrator rights deemed this Administrator (or root) connection tile unnecessary and deleted it from its group of connection tiles, and shortly after that there was a successful commit to that connection policy in SPS, the deleted connection tile reappeared in SRA.	N/A
<p>The issue has been fixed, and now, the Administrator (or root) connection tile does not appear again.</p> <p><b>NOTE:</b> To restore the deleted Administrator (or root) connection tiles, see <i>Restoring deleted Administrator (or root) connection tiles</i> in the <i>One Identity Safeguard Remote Access Administration Guide</i>.</p>	
When multiple RDP and/or SSH session windows are opened in the browser, after a brief period of time, the sessions stop working. The issue has been fixed, and starting from <b>SPS 6.12</b> , sessions will work appropriately.	297384

Resolved Issue	Issue ID
<p>In some cases, when the Heimdall API was unavailable, the session window entered an infinite reload loop.</p> <p>The issue has been fixed, and now, if the Heimdall API is unavailable, the page does not reload continuously, but shows the following error message:</p> <div style="background-color: #f0f0f0; padding: 5px; border: 1px solid #ccc;"> <p>An unexpected error occurred. You may need to refresh your page (press F5).</p> </div>	276869
<p>The <b>User Preferences</b> page did not display information properly when resized to fit mobile screen width. The issue has been fixed, and now, when resizing the screen, the buttons are placed correctly.</p>	295054

## System requirements

Before using the 1 February 2024 SRA release, ensure that your system meets the following minimum software requirements.

### Browser requirements

**Table 7: Supported desktop browsers**

Browser	Minimum OS/Platform	Version
Google Chrome	Windows 10 Mac OS X Yosemite	Latest

**Table 8: Supported mobile browsers**

Browser	Minimum OS/Platform	Version
Google Chrome	Android	Latest

### (Optional) Feature requirements

**Table 9: (Optional) Feature requirements**

Feature	Requirement
Work accounts	To authenticate using a work account, you need the following:

Feature	Requirement
---------	-------------

- Fully configured Azure AD tenant capable of authenticating user.
- If an organization has registered an Azure AD tenant but it is not fully synchronized or an account has not yet been added, the owner of that account will be unable to use One Identity Starling at that time, unless they register independently from the organization.

## Product licensing

Use of this software is governed by the Software Transaction Agreement found at <https://www.oneidentity.com/legal/sta.aspx>. This software does not require an activation or license key to operate.

[Placeholder for text]

## New service instructions

The following instructions explain how to enable One Identity Safeguard Remote Access (SRA).

### **To enable SRA**

1. From the One Identity Starling home page (<https://www.cloud.oneidentity.com/>), click **TRY STARLING**.
2. Follow the instructions to complete your registration.
3. Sign in to your One Identity Starling account.
4. Configure One Identity Safeguard for Privileged Sessions (SPS) to join the appliance to One Identity Starling and integrate with SRA.
5. Enable SRA. For more information, see [One Identity Safeguard Remote Access Administration Guide](#).

## More resources

Additional information is available from the following:

- Online product documentation
  - [One Identity Hybrid Subscription](#) information is included in the Starling documentation.

- [Starling Two-Factor Authentication](#) for Starling and Starling Two-Factor Authentication documentation.
- [Starling Connect](#) for Starling and Starling Connect documentation.
- [Starling CertAccess](#) for Starling and Starling CertAccess documentation.
- [One Identity Safeguard for Privileged Sessions](#) for SPS documentation.

## About us

One Identity solutions eliminate the complexities and time-consuming processes often required to govern identities, manage privileged accounts and control access. Our solutions enhance business agility while addressing your IAM challenges with on-premises, cloud and hybrid environments.

## Contacting us

For sales and other inquiries, such as licensing, support, and renewals, visit <https://www.oneidentity.com/company/contact-us.aspx>.

## Technical support resources

Technical support is available to One Identity customers with a valid maintenance contract and customers who have trial versions. You can access the Support Portal at <https://support.oneidentity.com/>.

The Support Portal provides self-help tools you can use to solve problems quickly and independently, 24 hours a day, 365 days a year. The Support Portal enables you to:

- Submit and manage a Service Request
- View Knowledge Base articles
- Sign up for product notifications
- Download software and technical documentation
- View how-to videos at [www.YouTube.com/OneIdentity](http://www.YouTube.com/OneIdentity)
- Engage in community discussions
- Chat with support engineers online
- View services to assist you with your product
