

Quest[®] Enterprise Reporter 3.5.0 Cloud Discoveries — Permissions and Requirements

November 2022

Microsoft Azure provides services in the cloud. Enterprise Reporter can connect to these services and generate reports. This document outlines the permissions and requirements for cloud discoveries by Enterprise Reporter. You can run cloud discoveries and collect attributes using the credentials in the table below.

Permissions and Requirements for Enterprise Reporter Cloud Discoveries

The following table outlines the permissions and requirements for Enterprise Reporter cloud discoveries.

Table 1. Permissions and requirements for Enterprise Reporter cloud discoveries

Discovery Type	Permissions and Requirements for Cloud Discovery Credentials
Azure Active Directory	<p>An account with Global Reader or Global Admin role is required.</p> <p>NOTE:</p> <ul style="list-style-type: none"> If you encounter errors, you may need to install the PowerShell module for Azure Active Directory. Accounts with Azure Active Directory Premium P2 license can collect all data.
Azure Resource	An account with Reader (NOT Global Reader) or Global Admin role is required to collect all options selected in a discovery.
Exchange Online	<ul style="list-style-type: none"> An account with Global Reader (Azure), Security Reader, and Recipient Management roles collects all options in a discovery. Global Reader collects all options except “Mailbox Delegates.” Global Reader and Security collect only “Mailbox Delegates.” Global Admin collects all discovery options.
Microsoft Teams	<p>The user credentials that will be used to collect Microsoft Teams information must have either the Teams Administrator or Global Administrator permissions.</p> <p>The user must also be a member of each Microsoft Teams group to prevent access denied errors during disk discovery.</p>
OneDrive	An account with an Office 365 license and access to folders being discovered is required to collect all options in a discovery.

About us

Quest provides software solutions for the rapidly-changing world of enterprise IT. We help simplify the challenges caused by data explosion, cloud expansion, hybrid datacenters, security threats, and regulatory requirements. We are a global provider to 130,000 companies across 100 countries, including 95% of the Fortune 500 and 90% of the Global 1000. Since 1987, we have built a portfolio of solutions that now includes database management, data protection, identity and access management, Microsoft platform management, and unified endpoint management. With Quest, organizations spend less time on IT administration and more time on business innovation. For more information, visit www.quest.com.

Technical support resources

Technical support is available to Quest customers with a valid maintenance contract and customers who have trial versions. You can access the Quest Support Portal at <https://support.quest.com>.

The Support Portal provides self-help tools you can use to solve problems quickly and independently, 24 hours a day, 365 days a year. The Support Portal enables you to:

- Submit and manage a Service Request.
- View Knowledge Base articles.
- Sign up for product notifications.
- Download software and technical documentation.
- View how-to-videos.
- Engage in community discussions.
- Chat with support engineers online.
- View services to assist you with your product.
