

One Identity Password Manager 5.12.0

Release Notes

Monday, March 6, 2023

These release notes provide information about the new features, enhancements, known or resolved issues, and other changes of One Identity Password Manager 5.12.0. This document describes the changes of both the regular and the Active Directory Lightweight Directory Services (AD LDS) edition of the software.

For the most recent documents and product information, and for the release notes and documentation of earlier product releases, see the [online Password Manager technical documentation](#) on the One Identity Support Portal.

About One Identity Password Manager 5.12.0

One Identity Password Manager 5.12.0 is a minor release, containing new features and resolved issues.

- For the list of new features, see [New features](#).
- For the list of resolved issues, see [Resolved issues](#).

New features

CAUTION: Password Manager does not provide feature parity between the legacy PMUser and new PMSelfService sites for self-service related activities. All new feature developments are only done for the new PMSelfService site.

Password Manager 5.12.0 contains the following new features:

- **Workflow grouping:** Groups are created by defining a group name for a workflow in workflow settings. Workflows with the same group name will be grouped together in the Password Manager Self-Service site.
- **Customization of workflow icons:** In workflow settings, a custom icon can be selected for a workflow from a predefined set.
- **Separately installable legacy API and custom web services:** API and custom web services functionality are available as a separate feature from the legacy Password Manager User site.

Enhancements

This section lists enhancements implemented in One Identity Password Manager 5.12.0.

Table 1: Enhancements

Enhancement	Issue ID
Previously, custom logon attribute definition was case-sensitive on General Settings > Search and Logon Options for the Password Manager Self-Service site and Helpdesk site inputs. These are no longer case-sensitive.	387058
License agreement text is updated to the latest version in Password Manager, Password Policy Manager, Secure Password Extension and Offline Password Reset.	389242
Password Manager administrators can define custom icons for workflows in workflow settings.	124630, 84864
Password Manager administrators can group workflows by defining a group name in workflow settings.	330779

Enhancement	Issue ID
The scaling of different elements in the Password Manager Self-Service site is improved. The usability on tablets and phones is improved.	330780
The previously available API and custom web services integrated within Password Manager User site is now available as a website that can be installed separately. It is enhanced with a Swagger User Interface to help Password Manager administrators test and experiment with the API.	293783

Deprecated features

The following is a list of features that are no longer supported starting with Password Manager 5.12.0.

- **PMUser site deprecation:** In release 5.12.0, by introducing the Custom Web Services API feature, Password Manager achieved the general feature parity of the PMSelfService site with the PMUser site. Therefore, the legacy PMUser component will be deprecated starting from the next Password Manager release.

Resolved issues

This section lists issues addressed in One Identity Password Manager 5.12.0.

Table 2: Resolved issues – General Password Manager Issues

Resolved issue	Issue ID
For some previous releases Password Policy Manager, Secure Password Extension and Offline Password Reset versions did not follow Password Manager versions. From Password Manager version 5.12.0, these versions move together.	386541
When the Authenticate with password activity was set to authenticate users with expired passwords, authentication failed in some cases. Temporary user attribute changes for this activity are now forced to happen on the primary domain controller.	299270

Table 3: Resolved issues – Password Manager Self-Service site

Resolved issue	Issue ID
Previously, some information considered as sensitive were present in Password Manager Self-Service URLs. These were moved elsewhere.	367198, 323887

Resolved issue	Issue ID
Previously, in some systems, the provided user object GUID was in a different format that was expected for validations after a Secure Token Server authentication. These cases are now handled as well.	405825

Table 4: Resolved issues – Password Manager Administration Site

Resolved issue	Issue ID
Previously, when entering invalid credentials on the login page, an additional system error appeared with the authentication error. This issue has been fixed, and the system error no longer appears.	407108

Table 5: Resolved issues – Password Manager Helpdesk Site

Resolved issue	Issue ID
Previously, Secure Token Server authentication failed on Helpdesk site when Helpdesk site was not installed on the same server as Secure Token Server.	406196
Previously, when entering invalid credentials on the login page, an additional system error appeared with the authentication error. This issue has been fixed, and the system error no longer appears.	407108

Known issues

The following is a list of issues, including those attributed to third-party products, that are known to exist at the time of the One Identity Password Manager 5.12.0 release.

Table 6: Known issues

Known issue	Issue ID
When User Principal Name (UPN) is used as service account, installing a Password Manager hotfix can lock the service account.	255614
<p>Workaround</p> <p>To solve the problem:</p> <ol style="list-style-type: none"> 1. Change the service account to the domainname\username format. 2. Provide a password for the same service account user. 3. Install the Password Manager hotfix. 	
Following a Password Manager upgrade, the General > Settings > Scheduled Tasks > Active Directory Sites task is disabled.	246147

Known issue	Issue ID
Workaround	
After upgrading Password Manager to a newer version, enable the Active Directory Sites task manually.	
When scheduled from the secondary instance of the Password Manager server, the General Settings > Unregister Users task does not run.	233679
Workaround	
Schedule the Unregister Users task on the primary instance of Password Manager.	
If the application pool identity is a domain user with minimal permissions, then Web interface customization changes are not applied to the Self-Service and Helpdesk Sites.	233658
In the General Settings > Instance Reinitialization page, the Corporate phone attribute is not imported from the primary instance to the secondary instance.	229200
Workaround	
Update the Corporate phone attribute manually on the secondary instance to have the same value as on the primary Password Manager instance.	
If the Password Manager Self-Service Site contains an IPv6 address, the location-sensitive authentication (LSA) feature does not work.	221571
Workaround	
LSA currently supports IPv4 addresses only. Therefore, do not access the Password Manager Self-Service Site from an external network where the request contains an IPV6 address.	
When configuring a dictionary rule in the Password Manager Administration Site, the Policy Rules > Dictionary Rule > Enable dictionary lookup to reject passwords that contain > Beginning characters of a dictionary word setting does not work correctly if you specify only 2 beginning characters.	221468
Workaround	
One Identity recommends using the A complete word from the dictionary (QPMDictionary.txt) setting when configuring a dictionary rule.	
If no appropriate authentication methods are configured for it, the Forgot My Password screen may appear blank in the Password Manager Self-Service Site or Helpdesk Site.	221389
Workaround	
In the Password Manager Administration Site, One Identity recommends	

Known issue	Issue ID
<p>workflow with Security Questions workflow with Security Questions as one of its registration modes.</p>	
<p>When a symmetry rule is configured with the Policy Rules > Symmetry Rule setting of the Password Manager Administration Site, it may fail to validate passwords containing non-consecutive characters.</p>	220177
<p>Workaround</p> <p>Do not use the Policy Rules > Symmetry Rule > Maximum number of consecutive characters within a password, that read the same in both directions (pass4554word) setting.</p>	
<p>In a Password Manager for AD LDS environment, if the User Scope is configured with an AD LDS account, the Forgot My Password and Manage My Passwords workflows will fail.</p>	220171
<p>Workaround</p> <p>When configuring a User Scope, do not use The following AD LDS account setting of the Access account > Edit AD LDS Instance Connection dialog.</p>	
<p>When a Questions and Answers Policy is updated with any language other than English, users may receive both the default and the custom email notifications on the Password Manager Self-Service Site.</p>	219401
<p>Workaround</p> <p>For the Email user if workflow succeeds workflow, change the value of the Select email template to use setting to Customize.</p>	
<p>When searching users with reCAPTCHA enabled, not entering reCAPTCHA for the second time results in a non-human readable error message.</p>	217064
<p>Workaround</p> <p>Always search for users with the correct username and with the reCAPTCHA check completed.</p>	
<p>Upgrading Password Manager from version 5.6.3 to 5.9.x keeps the previous My Questions and Answers profile workflow.</p>	215892
<p>Workaround</p> <p>To solve the problem:</p> <ol style="list-style-type: none"> 1. In the Password Manager Administration Site, navigate to the My Questions and Answers profile workflow. 2. Open Workflow Settings > Availability. 3. Set Enable the workflow to Never. 4. Select Show the workflow on the Self-Service site. 	

Known issue	Issue ID
5. To apply your changes, click OK .	
The User Status Statistics scheduled task may fail intermittently.	171590
After upgrading to Password Manager 5.9.x, the My Notifications custom workflow cannot be edited in the Password Manager Self-Service Site.	171589
Workaround	
One Identity recommends to use the legacy Self-Service Site to edit the My Notifications workflow.	
When using Password Manager for AD LDS, the Password Policies page of the Administration Site is not updated when a password policy is created.	170587
Workaround	
After a new Password Policy is created, click Save , and immediately cancel the Add New Policy wizard. The page will refresh and list the new policy.	
After upgrading to Password Manager for AD LDS 5.9.x, the General Settings > Search and Logon Options menu may display an error when its settings are modified.	170560
Workaround	
To solve this problem:	
<ol style="list-style-type: none"> 1. In the Password Manager for AD LDS Helpdesk Site, navigate to General Settings > Search and Logon Options. 2. In the Users must enter the following user account attribute for identification setting, change the value from sAMAccountName to cn. 	
Domain users may not be able to access the Password Manager Administration Site, even if they are members of the local PMAAdmin group.	170441
Workaround	
When using Password Manager 5.8.x or newer, domain users can access the Administration Site only if they are members of both the local PMAAdmin group, and either the IIS_IUSRS group or the Administrators group.	
In Password Manager for AD LDS, certain column data required for custom activities are not available in generated reports.	170355
After upgrading Password Manager from an earlier version to 5.9.x, the upgrade process may create duplicate URL references for the Password Manager User Site.	169921
Workaround	
Manually delete URL shortcuts that are not required.	
When a Password Manager for AD LDS instance and the Password Manager	169763

Known issue**Issue ID**

for AD LDS server instance are not configured on the same machine, Password Policy Rules are not displayed in the new and legacy Password Manager for AD LDS Self-Service Sites.

Workaround

Configure the Password Manager for AD LDS instance and the Password Manager for AD LDS server instance on the same machine.

The user search settings of the Password Manager for AD LDS Helpdesk Site may work incorrectly. 169384

Workaround

To solve the problem:

1. In the Password Manager for AD LDS Helpdesk Site, navigate to **General Settings > Search and Logon Options**.
2. Use the **cn** attribute instead of **mail** to search for users.

When editing a Questions and Answers Policy, you may be unable to edit or delete translated questions. 168957

Workaround

To edit existing translated questions, add another translated language.

The Password Manager Self-Service Site may not launch on Secure Password Extension (SPE) through a 32-bit operating system. 167871

Workaround

If you have a 32-bit operating system, One Identity recommends to use the legacy Self-Service Site.

When a password is changed from the target Active Directory (AD) system to that of the source AD, One Identity Quick Connect may be unable to synchronize passwords. 167573

Workaround

Restart the Quick Connect Capture Agent Service on all the source and target systems.

In Password Manager versions 5.8.2 and 5.9.x, you can only reconnect to a domain on the second attempt. 166950

Workaround

To solve the problem:

1. In the Password Manager Administration Site, select the User Scope, Helpdesk Scope or Password Policy you want to configure.
2. Click **Add domain connection** twice to add a new domain connection.

Known issue	Issue ID
In email notifications, the #OPERATOR_ACCOUNT_NAME#, #OPERATOR_IP#, #WORKFLOW_RESULT#, and #WORKFLOW_SUMMARY# parameters are not populated.	141728
On Windows Server 2019, the Password Manager Service and One Identity rSMS Service may stop.	127587
Workaround	
To solve the problem, make sure that the domain controller machine and the clients are at two separate entities.	
When editing a dictionary file between the size of 10–20 MB from a Password Policy, the web browser session may crash, and an error may appear in the Windows Event Viewer.	115957
Workaround	
If you must modify a dictionary file larger than 10 MB, edit it from the domain machine where Password Policy Manager (PPM) is installed.	
When performing a password reset with the Password Manager Helpdesk Site, the site also accepts the previous/old password.	114822
Workaround	
Manually enter a different password during the short duration of the password reset.	

System requirements

This section provides the system requirements for installing and running Password Manager and its components.

Password Manager Service and Administration Site requirements

Before installing Password Manager, ensure your system meets the following minimum hardware and software requirements. These requirements are applicable both to Full Installation and Distributed Installation (when the Self-Service Site and the Helpdesk Site are installed on separate systems).

Table 7: Password Manager Service and Administration Site requirements

Requirement	Details
Platform	1.6 GHz or higher.
Memory	At least 4 GB RAM.
Hard disk space	2.7 GB of free disk space. NOTE: If .NET Framework is already installed, then installation may require less disk space.
Operating system	Password Manager can be run on any of the following operating systems: <ul style="list-style-type: none">• Microsoft Windows Server 2012 R2• Microsoft Windows Server 2016• Microsoft Windows Server 2019• Microsoft Windows Server 2022 NOTE: Consider the following operating system and machine restrictions: <ul style="list-style-type: none">• Password Manager is not supported on Windows Server Core mode setup.• One Identity does not recommend installing Password Manager on the machine where the Domain Controller (DC) server is installed.• Password Manager supports Windows Server 2012 R2 and later versions in domain and forest functional levels, including domains operating in a mixed mode.• Password Manager does not support Windows 2008 and earlier versions.
Internet Information Services	Password Manager requires any of the following Microsoft Internet Information Services (IIS) versions on the web server of your environment: <ul style="list-style-type: none">• IIS 8.0• IIS 10.0 NOTE: PMSelfService site requires IIS 10. TIP: To ensure best practice security, configure Password Manager to use HTTPS. For more information, see <i>Password Manager 5.12.0 Administrator Guide</i> or <i>Password Manager 5.12.0 Administrator Guide (AD LDS Edition)</i> .
Web browser	Password Manager supports the following web browsers:

Requirement	Details
	<ul style="list-style-type: none"> • Microsoft Edge • Mozilla Firefox 10 or later • Apple Safari 5 or later • Google Chrome 15 or later
Microsoft .NET Framework	<p>Microsoft .NET Framework 4.7.2</p> <p>NOTE: Install .NET Framework before you install Password Manager.</p>
Visual C++ Runtime Libraries	<p>Password Manager supports the following Visual C++ Runtime Libraries:</p> <ul style="list-style-type: none"> • Visual C++ Runtime Libraries 2017 • Visual C++ Runtime Libraries 2010 <p>Visual C++ Runtime Libraries x86 and x64 are included in the Password Manager distribution package.</p> <p>NOTE: Install Visual C++ Runtime Libraries 2010 and Visual C++ Runtime Libraries 2017 before you install Password Manager.</p>
Minimum screen resolution	1280x1024 pixels

Password Manager Self-Service Site and Helpdesk Site requirements

Make sure that every client computer meets the following minimum software requirements:

Table 8: Password Manager Self-Service Site and Helpdesk Site requirements

Requirement	Details
Web browser	<p>The Password Manager Self-Service Site and Helpdesk Site support the following browsers:</p> <ul style="list-style-type: none"> • Microsoft Edge • Mozilla Firefox 10 or later • Apple Safari 5 or later • Google Chrome 15 or later
Minimum screen resolution	1280x1024 pixels

Password Policy Manager requirements

To implement password policies in an Active Directory (AD) domain managed by Password Manager, deploy the Password Policy Manager component on all domain controllers of the managed domain.

The domain controllers where you plan to install the Password Policy Manager component must meet the following requirements:

Table 9: Password Policy Manager Requirements

Requirement	Details
Hard disk space	30 MB of free hard disk space.
Operating system	Password Policy Manager supports the following operating systems: <ul style="list-style-type: none">• Microsoft Windows Server 2012 R2• Microsoft Windows Server 2016• Microsoft Windows Server 2019• Microsoft Windows Server 2022 <p>NOTE: Password Manager does not support Windows Server Core mode setup.</p>

Secure Password Extension requirements

To support password resets from the Windows login screen, you must deploy Secure Password Extension on all target computers in the managed domain. The target computers must meet the following minimum software requirements:

Table 10: Secure Password Extension requirements

Requirement	Details
Operating system	Secure Password Extension supports the following operating systems: <ul style="list-style-type: none">• Microsoft Windows 8.1• Microsoft Windows 10• Microsoft Windows 11
Web browser	Microsoft Internet Explorer 11 <p>NOTE: Due to potential security threats, One Identity does not recommend using any Internet Explorer plug-ins on computers with Secure Password Extension installed.</p>

Offline Password Reset requirements

To allow users to reset their forgotten passwords when they are not connected to the corporate network (making their domain unavailable), deploy the Offline Password Reset component on all target computers in the managed domain.

NOTE: Users can reset their passwords offline only if the Offline Password Reset component has been already installed prior to their scheduled password reset time.

The target computers must meet the following minimum software requirements:

Table 11: Offline Password Reset requirements

Requirement	Details
Operating system	<p>The Offline Password Reset component supports the following operating systems:</p> <ul style="list-style-type: none">• Microsoft Windows 8.1• Microsoft Windows 10• Microsoft Windows 11 <p>NOTE: Password Manager does not support Windows Server Core mode setup.</p>

Password Manager Reports requirements

To configure and use Password Manager reports, you must:

1. Install an SQL server in your environment.
2. Configure reporting settings on the Password Manager Administration Site. For more information, see *Reporting in Password Manager 5.12.0 Administration Guide* or *Password Manager 5.12.0 Administration Guide (AD LDS Edition)*.

The report definitions included with Password Manager support all features of the SQL server versions listed in this section. All supported Microsoft SQL Server Reporting Services in Password Manager support SSL connection.

Table 12: Password Manager Reports requirements

Requirement	Details
SQL Server	<p>The following SQL Server versions are supported:</p> <ul style="list-style-type: none">• Microsoft SQL Server 2012 R2• Microsoft SQL Server 2014

Requirement	Details
-------------	---------

- Microsoft SQL Server 2016
- Microsoft SQL Server 2017

Accessing External URLs

To enable Password Manager to download images:

- The machine where Password Manager is installed must have an active Internet access.
- The following Password Manager sites require access to the following external URLs.

Upgrade and installation instructions

For more information on how to install or upgrade One Identity Password Manager, see the following resources:

- When you upgrade Password Manager from versions prior 5.11.0 or 5.11.1 and Secure Token Server features are used, create a backup of **Rsts.exe.config** in Password Manager installation folder\Service\SecureTokenServer. When the upgrade is finished, restore these files.

This procedure is not required for upgrades starting from version 5.12.0.

- For more information on the upgrade procedure, see *Upgrading Password Manager* in the *Password Manager 5.12.0 Administration Guide* or the *Password Manager 5.12.0 Administration Guide (AD LDS Edition)* documents.

You can upgrade to Password Manager 5.12.0 from version 5.8.2 or later.

- For more information on how to install and configure Password Manager, see *Installing Password Manager* in the *Password Manager 5.12.0 Administration Guide*, *Password Manager 5.12.0 Administration Guide (AD LDS Edition)*, or the *Password Manager 5.12.0 Quick Start Guide* documents.

Product licensing

One Identity Password Manager requires a license key for operation. For more information on license management, see *Licensing* in the *Password Manager 5.12.0 Administrator Guide* or the *Password Manager 5.12.0 Administrator Guide (AD LDS Edition)* documents.

Globalization

This section contains information about installing and operating this product in non-English configurations, such as those needed by customers outside of North America. This section does not replace the materials about supported platforms and configurations found elsewhere in the product documentation.

This release is Unicode-enabled and supports any character set. It supports simultaneous operation with multilingual data. This release is targeted to support operations in the following regions: North America, Western Europe and Latin America, Central and Eastern Europe, Far-East Asia, Japan.

The release is localized to the following languages: Chinese (Simplified), Chinese (Traditional), Czech, Danish, Dutch, French, German, Italian, Japanese, Korean, Polish, Portuguese (Brazil), Portuguese (Portugal), Russian, Spanish, Swedish.

The Password Manager Self-Service site is not localized in any language other than English.

About us

One Identity solutions eliminate the complexities and time-consuming processes often required to govern identities, manage privileged accounts and control access. Our solutions enhance business agility while addressing your IAM challenges with on-premises, cloud and hybrid environments.

Contacting us

For sales or other inquiries, visit <https://www.oneidentity.com/company/contact-us.aspx>.

Technical support resources

Technical support is available to One Identity customers with a valid maintenance contract and customers who have trial versions. You can access the Support Portal at <https://support.oneidentity.com/>.

The Support Portal provides self-help tools you can use to solve problems quickly and independently, 24 hours a day, 365 days a year. The Support Portal enables you to:

- Submit and manage a Service Request
- View Knowledge Base articles
- Sign up for product notifications
- Download software and technical documentation
- View how-to-videos at www.YouTube.com/OneIdentity
- Engage in community discussions
- Chat with support engineers online
- View services to assist you with your product

Apache 2.0

Apache License

Version 2.0, January 2004

<http://www.apache.org/licenses/>

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a

copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the

editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes

of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of,

the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions

to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner

or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted"

means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to

communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the

Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise

designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and

subsequently incorporated within the Work.

2. Grant of Copyright License.

Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual,

worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of,

publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License.

Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted.

If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution.

You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions.

Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions.

Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks.

This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty.

Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE.

You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability.

In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability.

While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License.

However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "[]" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.

See the License for the specific language governing permissions and limitations under the License.

GNU Lesser General Public License v3

Copyright © 2007 Free Software Foundation, Inc.

<https://fsf.org/>

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

This version of the GNU Lesser General Public License incorporates the terms and conditions of version 3 of the GNU General Public License, supplemented by the additional permissions listed below.

0. Additional Definitions.

As used herein, "this License" refers to version 3 of the GNU Lesser General Public License, and the "GNU GPL" refers to version 3 of the GNU General Public License.

"The Library" refers to a covered work governed by this License, other than an Application or a Combined Work as defined below.

An "Application" is any work that makes use of an interface provided by the Library, but which is not otherwise based on the Library. Defining a subclass of a class defined by the Library is deemed a mode of using an interface provided by the Library.

A "Combined Work" is a work produced by combining or linking an Application with the Library. The particular version of the Library with which the Combined Work was made is also called the "Linked Version".

The "Minimal Corresponding Source" for a Combined Work means the Corresponding Source for the Combined Work, excluding any source code for portions of the Combined Work that, considered in isolation, are based on the Application, and not on the Linked Version.

The "Corresponding Application Code" for a Combined Work means the object code and/or source code for the Application, including any data and utility programs needed for reproducing the Combined Work from the Application, but excluding the System Libraries of the Combined Work.

1. Exception to Section 3 of the GNU GPL.

You may convey a covered work under sections 3 and 4 of this License without being bound by section 3 of the GNU GPL.

2. Conveying Modified Versions.

If you modify a copy of the Library, and, in your modifications, a facility refers to a function or data to be supplied by an Application that uses the facility (other than as an argument passed when the facility is invoked), then you may convey a copy of the modified version:

- a. under this License, provided that you make a good faith effort to ensure that, in the event an Application does not supply the function or data, the facility still operates, and performs whatever part of its purpose remains meaningful, or
- b. under the GNU GPL, with none of the additional permissions of this License applicable to that copy.

3. Object Code Incorporating Material from Library Header Files.

The object code form of an Application may incorporate material from a header file that is part of the Library. You may convey such object code under terms of your choice, provided that, if the incorporated material is not limited to numerical parameters, data structure layouts and accessors, or small macros, inline functions and templates (ten or fewer lines in length), you do both of the following:

- a. Give prominent notice with each copy of the object code that the Library is used in it and that the Library and its use are covered by this License.
- b. Accompany the object code with a copy of the GNU GPL and this license document.

4. Combined Works.

You may convey a Combined Work under terms of your choice that, taken together, effectively do not restrict modification of the portions of the Library contained in the Combined Work and reverse engineering for debugging such modifications, if you also do each of the following:

- a. Give prominent notice with each copy of the Combined Work that the Library is used in it and that the Library and its use are covered by this License.
- b. Accompany the Combined Work with a copy of the GNU GPL and this license document.
- c. For a Combined Work that displays copyright notices during execution, include the copyright notice for the Library among these notices, as well as a reference directing the user to the copies of the GNU GPL and this license document.
- d. Do one of the following:
 - i. Convey the Minimal Corresponding Source under the terms of this License, and the Corresponding Application Code in a form suitable for, and under terms that permit, the user to recombine or relink the Application with a modified version of the Linked Version to produce a modified Combined Work, in the manner specified by section 6 of the GNU GPL for conveying Corresponding Source.
 - ii. Use a suitable shared library mechanism for linking with the Library. A suitable mechanism is one that (a) uses at run time a copy of the Library already present on the user's computer system, and (b) will operate properly with a modified version of the Library that is interface-compatible with the Linked Version.
- e. Provide Installation Information, but only if you would otherwise be required to provide such information under section 6 of the GNU GPL, and only to the extent that such information is necessary to install and execute a modified version of the Combined Work produced by recombining or relinking the Application with a modified version of the Linked Version. (If you use option 4d0, the Installation Information must accompany the Minimal Corresponding Source and Corresponding Application Code. If you use option 4d1, you must provide the Installation Information in the manner specified by section 6 of the GNU GPL for conveying Corresponding Source.)

5. Combined Libraries.

You may place library facilities that are a work based on the Library side by side in a single library together with other library facilities that are not Applications and are not covered by

this License, and convey such a combined library under terms of your choice, if you do both of the following:

- a. Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities, conveyed under the terms of this License.
- b. Give prominent notice with the combined library that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work.

6. Revised Versions of the GNU Lesser General Public License.

The Free Software Foundation may publish revised and/or new versions of the GNU Lesser General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Library as you received it specifies that a certain numbered version of the GNU Lesser General Public License "or any later version" applies to it, you have the option of following the terms and conditions either of that published version or of any later version published by the Free Software Foundation. If the Library as you received it does not specify a version number of the GNU Lesser General Public License, you may choose any version of the GNU Lesser General Public License ever published by the Free Software Foundation.

If the Library as you received it specifies that a proxy can decide whether future versions of the GNU Lesser General Public License shall apply, that proxy's public statement of acceptance of any version is permanent authorization for you to choose that version for the Library.

Microsoft Software License Terms

MICROSOFT VISUAL STUDIO 2017 TOOLS, ADD-ONS and EXTENSIONS

These license terms are an agreement between Microsoft Corporation (or based on where you live, one of its affiliates) and you. They apply to the software named above. The terms also apply to any Microsoft services or updates for the software, except to the extent those have different terms.

IF YOU COMPLY WITH THESE LICENSE TERMS, YOU HAVE THE RIGHTS BELOW.

1. INSTALLATION AND USE RIGHTS.

You may install and use any number of copies of the software.

2. TERMS FOR SPECIFIC COMPONENTS.

a. Utilities. The software may contain some items on the Utilities List at <https://go.microsoft.com/fwlink/?linkid=823097>. You may copy and install these Utilities, if included with the software, onto devices to debug and deploy your applications and databases you developed with the software. Please note that Utilities are designed for temporary use, that Microsoft may not be able to patch or update Utilities separately from the rest of the software, and that some Utilities by their nature may make it possible for others to access devices on which the Utilities are installed. As a result, you should delete all Utilities you have installed after you finish debugging or deploying your applications and databases. Microsoft is not responsible for any third party use or access of Utilities you install on any device.

b. Build Tools. The software may include build tools which have specific use terms. For build tools, you may copy and install files from the software onto your build devices, including physical devices and virtual machines or containers on those machines, whether on-premises or remote machines that are owned by you, hosted on Azure for you, or dedicated solely to your use (collectively, "Build Devices"). You and others in your organization may use these files on your Build Devices solely to compile, build, and verify applications or run quality or performance tests of those applications as part of the build process. For clarity, "applications" means applications developed by you and others in your organization who are each licensed to use the software.

c. Microsoft Platforms. The software may include components from Microsoft Windows; Microsoft Windows Server; Microsoft SQL Server; Microsoft Exchange; Microsoft Office; and Microsoft SharePoint. These components are governed by separate agreements and their own product support policies, as described in the Microsoft "Licenses" folder accompanying the software, except that, if license terms for those components are also included in the associated installation directory, those license terms control.

d. Third Party Components. The software may include third party components with separate legal notices or governed by other agreements, as may be described in the ThirdPartyNotices file(s) accompanying the software.

3. DATA.

a. Data Collection. The software may collect information about you and your use of the software, and send that to Microsoft. Microsoft may use this information to provide services and improve our products and services. You may opt-out of many of these scenarios, but

not all, as described in the product documentation. There are also some features in the software that may enable you and Microsoft to collect data from users of your applications. If you use these features, you must comply with applicable law, including providing appropriate notices to users of your applications and you should provide a copy of Microsoft's privacy statement to your users. The Microsoft privacy statement is located here <https://go.microsoft.com/fwlink/?LinkID=824704>. You can learn more about data collection and use in the help documentation and our privacy statement. Your use of the software operates as your consent to these practices.

b. Processing of Personal Data. To the extent Microsoft is a processor or subprocessor of personal data in connection with the software, Microsoft makes the commitments in the European Union General Data Protection Regulation Terms of the Online Services Terms to all customers effective May 25, 2018, at <http://go.microsoft.com/?linkid=9840733>.

4. SCOPE OF LICENSE.

The software is licensed, not sold. This agreement only gives you some rights to use the software. Microsoft reserves all other rights. Unless applicable law gives you more rights despite this limitation, you may use the software only as expressly permitted in this agreement. In doing so, you must comply with any technical limitations in the software that only allow you to use it in certain ways. You may not

- work around any technical limitations in the software;
- reverse engineer, decompile or disassemble the software, or otherwise attempt to derive the source code for the

software except, and only to the extent required by third party licensing terms governing the use of certain open source components that may be included in the software;

- remove, minimize, block or modify any notices of Microsoft or its suppliers in the software;
- use the software in any way that is against the law; or
- share, publish, rent or lease the software, or provide the software as a stand-alone hosted as solution for others to use, or transfer the software or this agreement to any third party.

5. EXPORT RESTRICTIONS.

You must comply with all domestic and international export laws and regulations that apply to the software, which include restrictions on destinations, end users, and end use. For further information on export restrictions, visit www.microsoft.com/exporting.

6. SUPPORT SERVICES.

Because this software is "as is," we may not provide support services for it.

7. ENTIRE AGREEMENT.

This agreement, and the terms for supplements, updates, Internet-based services and support services that you use, are the entire agreement for the software and support services.

8. APPLICABLE LAW.

If you acquired the software in the United States, Washington law applies to interpretation of and claims for breach of this agreement, and the laws of the state where you live apply to all other claims. If you acquired the software in any other country, its laws apply.

9. CONSUMER RIGHTS; REGIONAL VARIATIONS.

This agreement describes certain legal rights. You may have other rights, including consumer rights, under the laws of your state or country. Separate and apart from your relationship with Microsoft, you may also have rights with respect to the party from which you acquired the software. This agreement does not change those other rights if the laws of your state or country do not permit it to do so. For example, if you acquired the software in one of the below regions, or mandatory country law applies, then the following provisions apply to you:

a. Australia. You have statutory guarantees under the Australian Consumer Law and nothing in this agreement is intended to affect those rights.

b. Canada. If you acquired this software in Canada, you may stop receiving updates by turning off the automatic update feature, disconnecting your device from the Internet (if and when you re-connect to the Internet, however, the software will resume checking for and installing updates), or uninstalling the software. The product documentation, if any, may also specify how to turn off updates for your specific device or software.

c. Germany and Austria.

(i) Warranty. The properly licensed software will perform substantially as described in any Microsoft materials that accompany the software. However, Microsoft gives no contractual guarantee in relation to the licensed software.

(ii) Limitation of Liability. In case of intentional conduct, gross negligence, claims based on the Product Liability Act, as well as, in case of death or personal or physical injury, Microsoft is liable according to the statutory law.

Subject to the foregoing clause (ii), Microsoft will only be liable for slight negligence if Microsoft is in breach of such material contractual obligations, the fulfillment of which facilitate the due performance of this agreement, the breach of which would endanger the purpose of this agreement and the compliance with which a party may constantly trust in (so-called "cardinal obligations"). In other cases of slight negligence, Microsoft will not be liable for slight negligence.

10. DISCLAIMER OF WARRANTY.

THE SOFTWARE IS LICENSED "AS-IS." YOU BEAR THE RISK OF USING IT. MICROSOFT GIVES NO EXPRESS WARRANTIES, GUARANTEES OR CONDITIONS. TO THE EXTENT PERMITTED UNDER YOUR LOCAL LAWS, MICROSOFT EXCLUDES THE IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE AND NON-INFRINGEMENT.

11. LIMITATION ON AND EXCLUSION OF DAMAGES.

YOU CAN RECOVER FROM MICROSOFT AND ITS SUPPLIERS ONLY DIRECT DAMAGES UP TO U.S. \$5.00. YOU CANNOT RECOVER ANY OTHER DAMAGES, INCLUDING CONSEQUENTIAL, LOST PROFITS, SPECIAL, INDIRECT OR INCIDENTAL DAMAGES.

This limitation applies to (a) anything related to the software, services, content (including code) on third party Internet sites, or third party applications; and (b) claims for breach of contract, breach of warranty, guarantee or condition, strict liability, negligence, or other tort to the extent permitted by applicable law.

It also applies even if Microsoft knew or should have known about the possibility of the damages. The above limitation or exclusion may not apply to you because your country may not allow the exclusion or limitation of incidental, consequential or other damages.

MICROSOFT VISUAL C++ 2010 RUNTIME LIBRARIES

Distributable Code

The software or online service may include code that you are permitted to distribute in programs you develop if you comply with the terms below.

RIGHT TO USE AND DISTRIBUTE

The code and text files listed below are "Distributable Code." These Product Use Rights may provide rights to other Distributable Code.

- REDIST.TXT Files: You may copy and distribute the object code form of code listed in REDIST.TXT files.
- Sample Code: You may modify, copy, and distribute the source and object code form of code marked as "sample."
- OTHER-DIST.TXT Files: You may copy and distribute the object code form of code listed in OTHER-DIST.TXT files.
- Third Party Distribution: You may permit distributors of your programs to copy and distribute the Distributable Code as part of those programs.
- Silverlight Libraries: Copy and distribute the object code form of code marked as "Silverlight Libraries", Silverlight "Client Libraries" and Silverlight "Server Libraries";

Additional License Terms for Products in the Developer Tools Section of these Product Use Rights

The software may also contain the following Distributable Code. You may:

- Microsoft Merge Modules: Copy and distribute the unmodified output of Microsoft Merge Modules;
- REDIST.TXT Files: Copy and distribute files listed in the REDIST list located at <http://go.microsoft.com/fwlink/?LinkId=165518>;
- Sample Code: Modify, copy, and distribute source and object code form of code marked as "Code Snippet";
- Image Library: Copy and distribute images and animations in the Image Library as described in the software documentation. You may also modify that content. If you modify the content, it must be for use that is consistent with the permitted use of the unmodified content.
- Templates and Site Templates: Modify, copy, deploy and distribute the source and object code form of templates and code marked as "site templates";
- Fonts: Distribute unmodified copies of the Buxton Sketch font, SketchFlow Print font and SegoeMarker font;
- Styles: Copy, modify and distribute the object code form of code identified as "X Styles";
- Icons: Distribute unmodified copies of code marked as "icons";
- Setup Program: Distribute distributable code included in a setup program only as part of that setup program. You may not modify it.

- EXTENSIBILITY KIT - Files for Microsoft Commerce Server 2009 Standard and Enterprise Editions: Copy and distribute the source and object code form of the code marked as "Extensibility Kit"; and
- Access Runtime Files. Copy and distribute the object code form of SETUP.EXE, ACCESSRT.MSI, and ACCESSRT.CAB files from a licensed copy of Microsoft Office Professional Plus 2010 or Microsoft Office Access 2010 software. You and your end users may only use these files to provide database features for your non-database management programs.

DISTRIBUTION REQUIREMENTS

For any Distributable Code you distribute, you must:

- add significant primary functionality to it in your programs;
- for any Distributable Code having a filename extension of .lib, distribute only the results of running such Distributable Code through a linker with your program;
- distribute Distributable Code included in a setup program only as part of that setup program without modification;
- require distributors and external end users to agree to terms that protect it at least as much as your volume licensing agreement, including these Product Use Rights and the Product List;
- display your valid copyright notice on your programs; and
- indemnify, defend, and hold harmless Microsoft from any claims, including attorneys' fees, related to the distribution or use of your programs.

DISTRIBUTION LIMITATIONS

You may not:

- alter any copyright, trademark or patent notice in the Distributable Code;
- use Microsoft's trademarks in your programs' names or in a way that suggests your programs come from or are endorsed by Microsoft;
- distribute Distributable Code, other than code listed in OTHER-DIST.TXT files, to run on a platform other than Microsoft operating systems, run-time technologies or application platforms;
- include Distributable Code in malicious, deceptive or unlawful programs; or
- modify or distribute the source code of any Distributable Code so that any part of it becomes subject to an Excluded License. An Excluded License is one that requires, as a condition of use, modification or distribution, that the code be disclosed or distributed in source code form, or that others have the right to modify it.

Microsoft Permissive License (Ms-PL)

This license governs use of the accompanying software. If you use the software, you accept this license. If you do not accept the license, do not use the software.

1. Definitions

The terms “reproduce,” “reproduction,” “derivative works,” and “distribution” have the same meaning here as under U.S. copyright law.

A “contribution” is the original software, or any additions or changes to the software.

A “contributor” is any person that distributes its contribution under this license.

“Licensed patents” are a contributor’s patent claims that read directly on its contribution.

2. Grant of Rights

(A) Copyright Grant- Subject to the terms of this license, including the license conditions and limitations in section 3, each contributor grants you a non-exclusive, worldwide, royalty-free copyright license to reproduce its contribution, prepare derivative works of its contribution, and distribute its contribution or any derivative works that you create.

(B) Patent Grant- Subject to the terms of this license, including the license conditions and limitations in section 3, each contributor grants you a non-exclusive, worldwide, royalty-free license under its licensed patents to make, have made, use, sell, offer for sale, import, and/or otherwise dispose of its contribution in the software or derivative works of the contribution in the software.

3. Conditions and Limitations

(A) No Trademark License- This license does not grant you rights to use any contributors’ name, logo, or trademarks.

(B) If you bring a patent claim against any contributor over patents that you claim are infringed by the software, your patent license from such contributor to the software ends automatically.

(C) If you distribute any portion of the software, you must retain all copyright, patent, trademark, and attribution notices that are present in the software.

(D) If you distribute any portion of the software in source code form, you may do so only under this license by including a complete copy of this license with your distribution. If you distribute any portion of the software in compiled or object code form, you may only do so under a license that complies with this license.

(E) The software is licensed “as-is.” You bear the risk of using it. The contributors give no express warranties, guarantees or conditions. You may have additional consumer rights under your local laws which this license cannot change. To the extent permitted under your local laws, the contributors exclude the implied warranties of merchantability, fitness for a particular purpose and non-infringement.

(F) If you distribute the software or derivative works with programs you develop, you agree to indemnify, defend, and hold harmless all contributors from any claims, including attorneys’ fees, related to the distribution or use of your programs. For clarity, you have no such obligations to a contributor for any claims based solely on the unmodified contributions of that contributor.

(G) If you make any additions or changes to the original software, you may only distribute them under a new namespace. In addition, you will clearly identify your changes or additions as your own.
