About Quest On Demand

Quest On Demand is a cloud based management platform, providing access to multiple Quest Software Microsoft management tools through a single interface. Cloud based is a term that refers to applications, services or resources made available to users on demand via the Internet. Quest On Demand is a Software as a Service (SaaS) application where application software is hosted in the cloud and made available to users through quest-on-demand.com.

The Quest On Demand management platform is based on the concepts of organizations, task based modules and Microsoft Entra tenants. When you sign up for the Quest On Demand service, you create an organization. The organization can subscribe to task based modules. Organization administrators can use the tools provided by the modules to perform administrative actions on Microsoft Entra tenants.

Incident response management

Quest Operations and Quest Support have procedures in place to monitor the health of the system and ensure any degradation of the service is promptly identified and resolved. On Demand relies on Azure and AWS infrastructure and as such, is subject to the possible disruption of these services.You can view the following status pages:

- Quest On Demand: https://status.quest-on-demand.com/
- Azure Services: https://azure.microsoft.com/en-ca/status/
- AWS Services: https://status.aws.amazon.com/

System requirements

The following web browsers are supported with On Demand:

- Microsoft Edge
- Google Chrome (latest version)
- Mozilla Firefox (latest version)

Product licensing

Quest On Demand is a Software as a Service (SaaS) application where application software is hosted in the cloud and made available to users through quest-on-demand.com.

Use of this software is governed by the Software Transaction Agreement found at www.quest.com/legal/sta.aspx and the SaaS Data Processing Addendum at www.quest.com/legal/dpa.aspx. This software does not require an activation or license key to operate.

You can sign in to Quest On Demand with a trial license, add your Microsoft Entra tenant, and sample the solutions the product can offer.

To enable a trial license with an existing Quest account

1. Go to https://www.quest.com/on-demand/
2. Scroll to the module you are interested in and click **Try Online**.
3. On the Free Trial of <Module Name> page, accept the license agreement, and click **Sign In for your Free Trial .**
4. Click **Sign in with Microsoft.**
5. Select your account in the upper right corner and enter a name for your Quest On Demand organization.
6. In the **Select Region** field, select the region where you want your data to reside.
7. Click **Create New Organization**.

You can now add your Microsoft Entra tenant and begin using the module. See the Global Settings User Guide for more information on working with Quest On Demand.

To create a Quest account and enable a trial license

1. Go to https://www.quest.com/on-demand/
2. Scroll to the module you are interested in and click **Try Online**.
3. Accept the license agreement and click **Create a Trial Account.**
4. Fill in the fields on the Create Account page and click **Sign Up**. Note that the email and password entered here will be the credentials you use to sign in to On Demand.
5. You will receive an email from support.quest.com. Click the **Start your free trial** link.
6. Sign in to On Demand with your Quest account or with Microsoft.
7. Select your account in the upper right corner and enter a name for your Quest On Demand organization.
8. In the **Select Region** field, select the region where you want your data to reside.
9. Click **Create New Organization**.

You can now add your Microsoft Entra tenant and begin using the module. See the Global Settings User Guide for more information on working with Quest On Demand.

NOTE: You can also manage subscriptions from within the On Demand application through **Settings | Subscriptions**.
