Welcome to Foglight for Redis

With Foglight[®] for Redis, DBAs can quickly and easily detect, diagnose and resolve performance issues — wherever, whenever and however they occur. Intuitive web-based dashboards alert you to emerging issues that might affect performance or availability, and a clear enterprise-wide view helps you optimize your entire physical, virtual and cloud-based Redis Enterprise environment.

These Release Notes cover the resolved issues, known issues, workarounds and other important information about 6.3.0.11 release of Foglight for Redis. Review all sections before starting installation.

Foglight for Redis 6.3.0.11 is a minor release with enhancements and bug fixes. See [Enhancements and resolved issues](#).

Enhancements and resolved issues

The following is a list of enhancements implemented in Foglight for Redis 6.3.0.11.

Enhancements/Resolved Issues	Issue ID
Update SMA_DB_Global cartridge to v6.3.0.11.	RED-35

Enhancements and resolved issues in version 6.3.0.10

The following is a list of enhancements implemented in Foglight for Redis 6.3.0.10.

Enhancements/Resolved Issues	Issue ID
Integrate with GlobalView.	RED-10
Add nav bar.	RED-30
Update SMA_DB_Global cartridge to v6.3.0.10.	RED-32
Update DB_Global_View_UI cartridge to v6.3.0.10.	RED-33

Enhancements and resolved issues in version 6.1.1.10

The following is a list of enhancements implemented in Foglight for Redis 6.1.1.10.

Enhancements/Resolved Issues	Issue ID
Set default sort on environment and database tables.	RED-22
Fixed Cartridge guide dead links.	RED-23
Show environment name instead of cluster in Redis Environments Table.	RED-24
Removed Redis Enterprise Cloud support.	RED-21
Tagged rule categories.	RED-20
Added threshold config tags.	RED-20
Log Host Aliases.	RED-1
Cluster availability alert added.	RED-18
Set log entry collection limit.	RED-19

System requirements

Before installing Foglight for Redis, ensure that your system meets the following minimum hardware and software requirements detailed in *Foglight System Requirements and Platform Support Guide*.

Customers running large deployments (that is, with more than 20 agents) should consult the *Foglight for Databases Deployment Guide*.

Required privileges

For information on the required privileges, refer to the *Foglight for Redis Cartridge Guide*.

Product licensing

Foglight includes a licensing capability that restricts access to those features that are defined in the license. Any Management Server installation requires a license that grants access to server-specific parts of the browser interface and the features associated with them. Foglight cartridges are also license-protected. While some cartridges are covered by the base Foglight license (such as Foglight Agent Manager cartridges and the Foglight for Infrastructure), others may require an additional license.

Foglight for Redis is covered by the base Foglight license that allows cartridges to be installed.

To activate a trial or a purchased commercial license:

- 1 On the navigation panel, under Dashboards, click *Administration > Setup > Manage Licenses*.
- 2 Click **Install**.
- 3 In the **Install License** dialog box, click **Browse**.
- 4 In the file browser that appears, specify the location of the license file.
- 5 In the **Install License** dialog box, click **Install License**.

Getting started with Foglight for Redis

Contents of the release package

The Foglight for Redis 6.3.0.11 release package contains the following:

- Foglight for Redis cartridge:

- *RedisAgent-6_3_0_11.car*
- Product documentation, including:
 - *Foglight for Redis Cartridge Guide* (PDF)
 - *Foglight for Databases Deployment Guide* (PDF)
 - *Foglight for Redis Release Notes* (this document)

Installation instructions

For installation pre-requisites, permissions, information necessary to determine your environment's hardware requirements, and for installation instructions, see the *Foglight for Redis Cartridge Guide*.

More resources

Additional information is available from the following:

- Online product documentation (<https://support.quest.com/technical-documents#F>)
- Foglight Community (<https://www.quest.com/community/products/foglight/>)

Globalization

This section contains information about installing and operating this product in non-English configurations, such as those needed by customers outside of North America. This section does not replace the materials about supported platforms and configurations found elsewhere in the product documentation.

This release was not enabled and tested for international operation. Only U.S. English configurations of this product and U.S. English datasets are fully supported. Support for non-ASCII characters or non-English configurations may work appropriately, but these configurations have not been tested and this release should be used with caution in these environments.

About us

Quest provides software solutions for the rapidly-changing world of enterprise IT. We help simplify the challenges caused by data explosion, cloud expansion, hybrid datacenters, security threats, and regulatory requirements. We are a global provider to 130,000 companies across 100 countries, including 95% of the Fortune 500 and 90% of the Global 1000. Since 1987, we have built a portfolio of solutions that now includes database management, data protection, identity and access management, Microsoft platform management, and unified endpoint management. With Quest, organizations spend less time on IT administration and more time on business innovation. For more information, visit www.quest.com.

Technical support resources

Technical support is available to Quest customers with a valid maintenance contract and customers who have trial versions. You can access the Quest Support Portal at <https://support.quest.com>.

The Support Portal provides self-help tools you can use to solve problems quickly and independently, 24 hours a day, 365 days a year. The Support Portal enables you to:

- Submit and manage a Service Request.
- View Knowledge Base articles.
- Sign up for product notifications.
- Download software and technical documentation.
- View how-to-videos.
- Engage in community discussions.
- Chat with support engineers online.
- View services to assist you with your product.
