

# One Identity Manager Starling Connect Connector 9.2.1

## Release Notes

**31 December 2024, 07:54**

This document provides information about Starling Connect Connector used to connect to Starling Connect Platform using the capabilities of SCIM Connector and configurations from the Starling Hybrid Subscription.

For the most recent documents and product information, see the [One Identity Manager documentation](#).

### About this release

This release introduces a new One Identity Manager connector, the Starling Connect Connector, which can be used to create a synchronization project to synchronize data from the Starling Connectors.

## Supported platforms

Starling Connect Connector Module can be configured with One Identity Manager 9.2.1

**NOTE:** The System Requirements applicable to the One Identity Manager applies to Starling Connect Connector Module also.

## Supported features

Supported features for One Identity Manager SCC module:

- Synchronization project can be created using App Server Authentication in SCC module.

# Resolved issues

The following is a list of issues addressed in this release.

**Table 1: General resolved issues**

Resolved Issue	Issue ID
Added the product VI.Projector.SCC.Migration to the deployment target Client\ CommandlineAdministration for successful migration using migration container.	449273

## System Requirements

Before installing One Identity Manager, ensure that your system meets the following minimum hardware and software requirements.

The system requirements applicable to the One Identity Manager apply to OneIM Integration with Starling Connect Connector also. For more information see [One Identity Manager Release Notes](#).

## Product licensing

Use of this software is governed by the Software Transaction Agreement found at [www.oneidentity.com/legal/sta.aspx](http://www.oneidentity.com/legal/sta.aspx). This software does not require an activation or license key to operate.

## Upgrade and installation instructions

The procedure to install Starling Connect Connector Module is similar to the procedures involved in installation of other One Identity Manager modules. For information on the installation of Starling Connect Connector Module module, refer the *Installing One Identity Manager Components* section of the *One Identity Manager Installation Guide*.
