- About us

About this release

Quest NetVault Plug-in *for Malware Detection* (Plug-in *for Malware Detection*) 14.0 is a first release, with new features and functionality. For complete product documentation, visit https://support.quest.com/technical-documents.

New features

New feature in Plug-in *for Malware Detection* 14.0:

- Malware detection for VMware backups.
- Viewing malware detection reports.
- Flagging/Highlighting saveset restore points' status as Infected or Clean.

System requirements

Before installing Plug-in *for Malware Detection*, ensure that your system meets the requirements outlined in the following table and in the *Quest NetVault Compatibility Guide* available at https://support.quest.com/technical-documents.

Table 1. System requirements

Requirement	Details
Operating systems	Currently, the Plug-in *for Malware Detection* is supported on RHEL 8.x only.
NetVault versions	The Plug-in *for Malware Detection* 14.0 requires NetVault 14.0 or later, NetVault Plug-in for VMware 14.0 and later, and QoreStor as targets.
Packages	EPEL package for RHEL 8.x installation.

Product licensing

To obtain the license key for your NetVault Server environment, determine the NetVault Machine ID of your main NetVault Server. Also identify the machine IDs of any clients running application plug-ins, such as Oracle, MySQL, PostgreSQL, SQL Server, and Exchange.

You can use the NetVault Configuration Wizard to install the product license keys. Alternatively, you can install the license keys from the Manage Clients page.

- Obtaining a machine ID
- Installing a license key using the configuration wizard
- Installing a license key from the Manage Clients page

Obtaining a machine ID

1. Start the NetVault WebUI.
2. In the Navigation pane, click **Manage Clients**.
3. In the **NetVault Clients** list, select the applicable machine, and click **Manage**.
4. On the **View Client** page, note the machine ID exactly as it is displayed in the **Client Summary** table.

Installing a license key using the configuration wizard

1. In the Navigation pane, click **Guided Configuration**.
2. On the **NetVault Configuration Wizard** page, click **Install Licenses**.
3. In the **NetVault Clients** list, select the applicable machine, and click **Next**.
4. In the **Enter the license key string** box, type or copy and paste the license key, and click **Apply**.

   After the key is applied successfully, a message is displayed.

Installing a license key from the Manage Clients page

1. In the Navigation pane, click **Manage Clients**.
2. In the **NetVault Clients** list, select the applicable machine, and click **Manage**.
3. On the **View Client** page, click **Install License**.
4. In the **Install License** dialog box, type or copy and paste the license key, and click **Apply**.

   After the key is applied successfully, a message is displayed.
5. To dismiss the dialog box, click **Close**.

NetVault Plug-in *for Malware Detection* 14.0 is available in English only.

About us

Quest provides software solutions for the rapidly-changing world of enterprise IT. We help simplify the challenges caused by data explosion, cloud expansion, hybrid datacenters, security threats, and regulatory requirements. We are a global provider to 130,000 companies across 100 countries, including 95% of the Fortune 500 and 90% of the Global 1000. Since 1987, we have built a portfolio of solutions that now includes database management, data protection, identity and access management, Microsoft platform management, and unified endpoint management. With Quest, organizations spend less time on IT administration and more time on business innovation. For more information, visit www.quest.com.

Technical support resources

Technical support is available to Quest customers with a valid maintenance contract and customers who have trial versions. You can access the Quest Support Portal at https://support.quest.com.

The Support Portal provides self-help tools you can use to solve problems quickly and independently, 24 hours a day, 365 days a year. The Support Portal enables you to:

- Submit and manage a Service Request.
- View Knowledge Base articles.
- Sign up for product notifications.
- Download software and technical documentation.
- View how-to-videos.
- Engage in community discussions.
- Chat with support engineers online.
- View services to assist you with your product.
