

# One Identity Manager Cloud HR Systems 9.2.2

## Release Notes

**05 May 2025, 11:50**

This document provides information about the One Identity Manager and its connection with Cloud HR Systems (CHS).

For the most recent documents and product information, see the [One Identity Manager documentation](#).

### About this release

This release provides the following functionalities:

- Synchronization of data from an HR provider like SAP SuccessFactors, Workday and Dayforce to One Identity Manager.
- Basic identity information like phone number and mail address can be modified after the synchronization of data from the HR system.

## Supported platforms

Cloud HR Systems Module can be configured on One Identity Manager version 9.2.2.

**NOTE:** The System Requirements applicable to the One Identity Manager applies to Cloud HR Systems also.

## New features

New features from the integration of One Identity Manager and Cloud HR Systems module:

- An administrator of One Identity Manager can synchronize the HR data from cloud systems into the base One Identity tables like Person, Department, ProfitCenter, and Locality.
- An administrator of One Identity Manager can update basic identity information for the attributes Phone, PhoneMobile and DefaultMailAddress using the Cloud HR System module.
- The latest CHS module provides an additional template for Dayforce. Hence, an administrator of One Identity Manager can now synchronize Dayforce objects to One Identity Manager.
- The latest CHS module template supports Workday systems. Hence, an administrator of One Identity Manager can now use the latest CHS template to synchronize Workday HR objects to One Identity Manager.

**NOTE:** This integration allows only the updating of data. Create and delete operations are not supported.

## Resolved issues

The following is a list of issues addressed in this release.

**Table 1: Resolved issues**

Resolved Issue	Issue ID
SyntaxType set to 'XML' for all XObjectKey as well as IsDynamicFk = 1 columns.	453790

## System Requirements

Before installing One Identity Manager, ensure that your system meets the following minimum hardware and software requirements.

The system requirements applicable to the One Identity Manager apply to Cloud HR Systems also. For more information see [One Identity Manager Release Notes](#).

## Product licensing

Use of this software is governed by the Software Transaction Agreement found at [www.oneidentity.com/legal/sta.aspx](http://www.oneidentity.com/legal/sta.aspx). This software does not require an activation or license key to operate.

## Upgrade and installation instructions

The procedure to install Cloud HR Systems module is similar to the procedures involved in

installation of other One Identity Manager modules. For information on the installation of Cloud HR Systems module, refer the *Installing One Identity Manager Components* section of the *One Identity Manager Installation Guide*.
