# Upgrade and compatibility

The Stat® 7.0.3 upgrade is compatible with any 5.7.x version of Stat or higher. See the Upgrade Notes included with this release. It is not necessary to uninstall previous versions of Stat to install 7.0.3.

# Product licensing

Commercial and trial Stat® 7.0.3 licenses are obtained from Support Link at https://support.quest.com/licensing-assistance. The procedure for activating licenses is the same for both commercial and trial licenses.

### *To activate a Stat license*

1. Open Stat and go to **Maintenance | General | System Maintenance**.
2. Click on the **License** Tab.
3. Paste the License Key and Site Message into the appropriate fields.
4. Click **Verify**.
5. The properties of the license will be displayed if the key/message are valid.

# Upgrade and installation instructions

For information about upgrading Stat® 5.7.x (or later) to version 7.0.3, see the *Stat Upgrade Notes* document included with this release.

# Additional resources

Additional information is available from the following:

- Online product documentation (https://support.quest.com/stat/technical-documents), which features latest versions of the Stat® System Administration Guide and the Stat User Guide
- Stat Community (https://www.quest.com/community/products/stat/)

# Globalization

This section contains information about installing and operating this product in non-English configurations, such as those needed by customers outside of North America. This section does not replace the materials about supported platforms and configurations found elsewhere in the product documentation.

This release was not enabled and tested for international operation. Only U.S. English configurations of this product and U.S. English datasets are fully supported. Support for non-ASCII characters or non-English configurations may work appropriately, but these configurations have not been tested and this release should be used with caution in these environments.

Stat is targeted to support operations in the following regions: North America, Western Europe, and Latin America.

This release is Unicode-enabled and supports any single or multi-byte Western European character set based on Western European locales or language configuration supported by Windows.

# About us

# We are more than just a name

We are on a quest to make your information technology work harder for you. That is why we build community-driven software solutions that help you spend less time on IT administration and more time on business innovation. We help you modernize your data center, get you to the cloud quicker and provide the expertise, security and accessibility you need to grow your data-driven business. Combined with Quest's invitation to the global community to be a part of its innovation, and our firm commitment to ensuring customer satisfaction, we continue to deliver solutions that have a real impact on our customers today and leave a legacy we are proud of. We are challenging the status quo by transforming into a new software company. And as your partner, we work tirelessly to make sure your information technology is designed for you and by you. This is our mission, and we are in this together. Welcome to a new Quest. You are invited to Join the Innovation™.

# Our brand, our vision. Together.

Our logo reflects our story: innovation, community and support. An important part of this story begins with the letter Q. It is a perfect circle, representing our commitment to technological precision and strength. The space in the Q itself symbolizes our need to add the missing piece—you—to the community, to the new Quest.

# Contacting Quest

For sales or other inquiries, visit https://www.quest.com/contact.

# Technical support resources

Technical support is available to Quest customers with a valid maintenance contract and customers who have trial versions. You can access the Quest Support Portal at https://support.quest.com.

The Support Portal provides self-help tools you can use to solve problems quickly and independently, 24 hours a day, 365 days a year. The Support Portal enables you to:

- Submit and manage a Service Request.
- View Knowledge Base articles.
- Sign up for product notifications.
- Download software and technical documentation.
- View how-to-videos.
- Engage in community discussions.
- Chat with support engineers online.
- View services to assist you with your product.

The patent license shall not apply to any other combinations which include the Contribution.<br>No hardware per se is licensed hereunder.<br>c) Recipient understands that although each Contributor grants the licenses<br>to its Contributions set forth herein, no assurances are provided by any Contributor that the Program does not infringe the patent or other intellectual property rights of any other entity.<br>Each Contributor<br>disclaims any liability to Recipient for claims brought by any other entity based on infringement of intellectual property rights or otherwise. Therefore,<br>if a Contributor includes the Program in a commercial product offering, such<br>Contributor ("Commercial Contributor") hereby agrees to defend and indemnify<br>every other Contributor ("Indemnified Contributor") against any losses,<br>damages and costs (collectively "Losses") arising from claims, lawsuits and<br>other legal actions brought by a third party against the Indemnified<br>Contributor to the extent caused by the acts or omissions of such Commercial<br>Contributor in connection with its distribution of the Program in a commercial<br>product offering. The obligations in this section do not apply to any claims<br>or Losses relating to any actual or alleged intellectual property<br>infringement. In order to qualify, an Indemnified Contributor must:<br>a) promptly notify the Commercial Contributor in writing of such claim, and<br>b) allow the Commercial Contributor to control, and cooperate with the<br>Commercial Contributor in, the defense and any related settlement<br>negotiations. The Indemnified Contributor may participate in any such claim at<br>its own expense.<br><br>For example, a Contributor might include the Program in a commercial product<br>offering, Product X. That Contributor is then a Commercial Contributor. If<br>that Commercial Contributor then makes performance claims, or offers<br>warranties related to Product X, those performance claims and warranties are<br>such Commercial Contributor's responsibility alone. Under this section, the<br>Commercial Contributor would have to defend claims against the other<br>Contributors related to those performance claims and warranties, and if a<br>court requires any other Contributor to pay any damages as a result, the<br>Commercial Contributor must pay those damages. |

| | 7. GENERAL<br><br>If any provision of this Agreement is invalid or unenforceable under applicable law, it shall not affect the validity or enforceability of the remainder of the terms of this Agreement, and without further action by the parties hereto, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable.<br><br>If Recipient institutes patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Program itself (excluding combinations of the Program with other software or hardware) infringes such Recipient's patent(s), then such Recipient's rights granted under Section 2(b) shall terminate as of the date such litigation is filed.<br><br>All Recipient's rights under this Agreement shall terminate if it fails to comply with any of the material terms or conditions of this Agreement and does not cure such failure in a reasonable period of time after becoming aware of such noncompliance. If all Recipient's rights under this Agreement terminate, Recipient agrees to cease use and distribution of the Program as soon as reasonably practicable. However, Recipient's obligations under this Agreement and any licenses granted by Recipient relating to the Program shall continue and survive.<br>Everyone is permitted to copy and distribute copies of this Agreement, but in order to avoid inconsistency the Agreement is copyrighted and may only be modified in the following manner. The Agreement Steward reserves the right to publish new versions (including revisions) of this Agreement from time to time. No one other than the Agreement Steward has the right to modify this Agreement. The Eclipse Foundation is the initial Agreement Steward. The Eclipse Foundation may assign the responsibility to serve as the Agreement Steward to a suitable separate entity. Each new version of the Agreement will be given a distinguishing version number. The Program (including Contributions) may always be distributed subject to the version of the Agreement under which it was received. In addition, after a new version of the Agreement is published, Contributor may elect to distribute the Program (including its Contributions) under the new version. |

| | Except as expressly<br>stated in Sections 2(a) and 2(b) above, Recipient receives no rights or<br>licenses to the intellectual property of any Contributor under this Agreement,<br>whether expressly, by implication, estoppel or otherwise. All rights in the<br>Program not expressly granted under this Agreement are reserved.<br>This Agreement is governed by the laws of the State of New York and the<br>intellectual property laws of the United States of America. No party to this<br>Agreement will bring a legal action under this Agreement more than one year<br>after the cause of action arose. Each party waives its rights to a jury trial in<br>any resulting litigation. |
